INTRODUCTION:

In today's world the education is not adequate to enable the student to complete with confidence and reach the goal without having practical experience. I the student of commerce of St. Joseph's college of arts and science for women, Hosur has undertaken days of internship program at Delta CNC Applications Pvt Ltd (Auditing and Tax consultant).

Delta CNC Application established in the year 2003 as small setup, has grown rapidly and housing several Turning Center and Machining Centers. Today we are one of the leading high precious engineering components manufacturers based at Hosur, Tamilnadu, India. At present we are catering our services to various high precision industries like Hydraulics, Oil & Gas, Railways, Automotives, Horology and General Engineering, etc.,

With decades of strong core technical background in high precious tools and components manufacturing, the top management is strong commitment and beliefs in its vision to make this organization as one of the best choice as destination for precious components manufacturing solution where they will get assured for the requirement which is a bundle of Quality, On time Delivery at competitive cost economics.

LEARNINGS:

I have gained deep knowledge about marketing, HR Department, accounting procedures and process in Delta CNC Applications.

MARKETING:

I have come to know about:

- Expertise in low volume high mix parts model.
- Machine shops are tune to fast setup changes.
- Large variety of machining facility.
- Dedicated supplier with raw material bank.
- Impact extrusion.
- At casting (pressure die casting + GDC + LPDC suppliers)

ACCOUNTING:

I have gained thorough knowledge about:

- Tally prime is the software used for the accounting process in Delta CNC applications.
- HSN code which is the main code of the product which is used to identify the product. It is harmonized system of nomenclature which is used to classify goods in a systematic manner.
- HSN code which is created to classify goods under GST. The HSN code which is issued by world's customs organization.
- By using the GST number, the auditor can find whether the purchase and sales of company is true or not.
- GST is the only tax which is followed in India currently. It is divided into several types such as CGST, SGST, and IGST. CGST&SGST is used during the purchase or sale of goods in interstate and IGST is the tax which is used during the purchase or sale of goods outside the state.

HR-DEPARTMENT PROCESS:

- ❖ Recruitment of the candidates.
- ❖ Training for the recruited employees.
- ❖ Employee & Employers relationship.
- ❖ Rewards and incentives.
- ❖ EPF/EPF Act and rules.

OUTCOME OF TRAINING:

- This training aroused my interest to learn more about Marketing, Human Resource and Accounting.
- Preparing accounts seems to be difficult once if we learnt, it will be interesting.
- Learnt more features of Tally Prime.
- I have learnt more about aero plane parts and its assembling process.

CONCLUSION:

Through internship training at Delta CNC Applications Pvt Ltd, a clear knowledge has been obtained about the various accounting methods used during auditing. I have developed the practical knowledge during the process of training which would definitely help me in the future aspects of my career.
