## **INTRODUCTION:**

STS Manufacturing Pvt Ltd, Unit 1 Plant, spreading over an area of 60,000Sq Ft. Located in a prominent industrial suburb in the Hosur city. They are one of the leading manufacturers of automobile components and catering to various reputed industries and has set a benchmark for supplying superior products, timely delivery and new product development.

Mr. K. Gopalakrishnan, Managing Director of M/s. STS Manufacturing PVT. LTD. is a B.E. Mechanical Engineering Graduate. He is much experienced in the field of Engineering especially in tube manipulation and industrial fabrication. He is the Promoter and Chairperson of STS Manufacturing Pvt Ltd formed under the Companies Act 1956.

His able Administration and in-depth technical knowledge have elevated the company into a very high level.

Ashok Leyland is their major customer and supplying variant parts for commercial vehicles such as Fitches, Front Cross Members, Cab Mounting Brackets, Air Cleaner Mounting & Fender Mounting Brackets, Air Tank Brackets& Silencer Mounting Brackets, S/A of CSO Brackets, Battery Carriers, RUPD, FUPD, LUPD-Beam & Brackets, Exhaust & Tail Pipes, Radiator & CAC Pipes, Control Tubes & Gear Shifting Levers, Handles and other Stays

## **OBJECTIVES:**

1. To have an overall idea about the process done at manufacturing unit.
2. To gain knowledge and experience on how STS Manufacturing Pvt Ltd, process the manufacturing operations.
3. To learn about the formalities checked before and after the production and delivery of the products.

## **LEARNINGS:**

- I have given a holistic understanding about the organization's culture and principles they believe in.
- I have given a brief overview of the functions of various departments within the company, their services and innovation.
- I have learnt that before producing a product it requires a purchase order form the client, then the raw materials have to be processed according to the details mentioned in the purchase order and to be delivered to the client.

Thus, I gained practical knowledge in dealing with the process of manufacturing.

## **OUTCOME OF INTERNSHIP TRAINING:**

- I came to know about the different kinds of machines used in the process.
- This training aroused my interest to learn about the process of manufacturing and its procedure.
- Credit services balance the deficit areas to grow to compete with the surplus
- Learnt the procedures for ordering raw materials, processing and delivering of products.

## **CONCLUSION:**

Through internship training at STS Manufacturing Pvt Limited, Hosur a clear knowledge has been obtained about the various procedures for manufacturing and supplying a product. I have developed a practical knowledge on procedure of production and distribution of the different product produced, during the process of training. I'm sure that all my learnings in this internship would definitely help me in the future aspects of my career.
