- This department is responsible for the production of commercial vehicles.
- The hour manufacturing plant is equipped with the latest best quality machinery and technology to ensure the best quality is produced.

MAJOR PRODUCTS

- Rivet
- Eye bolts
- Lever
- Hub
- Screw

HUMANRESOURCE DEPARTMENT

HR department deal with employees, management, recruitment, training and development performance and other employee related HR plays a major role in helping companies deal with a fast changing business environment and a greater demand for quality. The HR manager has five main duties talents management, compensation, employee benefits, training and development, compliance and workplace safety.

HR is the main pillar of the organization.

1. Recruitment of candidates

The HR department is familiar with the kind of candidate to fill a company position. Hence, they are given the task of selecting a qualified person for the job.

2. Payroll processing

The process of pay roll is in itself an activity that the HR department is responsible for. It is concerned with arriving at a net pay after deducting all the taxes.

3. Training and development

Despite an employee being a new hire or an existing one, they will require regular skills- building sessions for career development to be productive and meet their personal and professional goals.

CONCLUSION

All in all internship practices I attended at CASCY FORGE PRIVATE LIMITED availed me with the tools , people, processes, with which I was able to practically understand the link between what I learned in college within the scope of manufacturing department specifically in the areas manufacturing of raw materials into finished goods and above all maintenance of ethical code of conduct while executing the different task and while with emphasis on how to relate with other employees in an organization.

A STUDY ON THE PRODUCTION DEPARTMENT OF SSF PLASTICS INDIA PRIVATE LIMITED

INTRODUCTION

SSF PLASTICS INDIA PRIVATE LIMITED The Company was formed in the year 1985 and the first unit was set up by the brothers Sunil Dhawan and Kapil Dhawan in Andheri, Mumbai. Right from day one, the basic principles on which the setup would operate were carved out by the promoters. The company would be compliant with all laws and regulations, it would keep customer centricity as it's core objective, it would treat its employees and all other stakeholders with respect and provide a safe working environment for all employees. The company has grown manifold during the past 36 years and these governing principles have been sustained and given as much importance as profitable operations. From a single machine operation in 1985, we are now nearing the 300-machine mark spread over the country. Over the years we have set up customer centric capabilities such as our own Blow moulding tool room, a high-end Injection and IBM mold tool room, a design center, an in-house automation set up and an optimization project management team who are ever on the lookout for cost optimization through using various innovation and creative approaches towards plastic component moulding and assembly capabilities. They provide plastics bottles' to overall India like harpic bottle, detol bottle, lizol bottle, iodex etc...

MACHINERY USED

1. Granulator
2. Pre-heating oven
3. Extruder
4. Palletizer
5. Blow moulding
6. Injection moulding

MANUFACTURING OF PRODUCT

Manufacturing is a process of transforming (converting) input (Raw Material) Into output (finished goods) so, Manufacturing means the goods and services, it is done to satisfy human wants, Thus reproduction is a process of transformation.

- Monitoring hourly production system and developing production method and training to workers.
- Cost reduction and operation efficiency.
- Responsible for production and calculation of target and achieving them by monitoring, loading and output plans.

SKILLS

- I have gained leadership skill in my practicum.
- I have learned about different types of materials used to manufacture the product.
- I have gained ability to work as a part of team.
- I have gained immense knowledge about manufacturing a product.
- I get to know about the how the machinery is used.
- During the course of exercises, I was able to take accurate ethical decision.

CONCLUSION

All in all internship practices I attended at SSF plastics India Private limited availed me with the tools , people, processes, with which I was able to practically understand the link between what I learned in college within the scope of manufacturing department specifically in the areas manufacturing of raw materials into finished goods and above all maintenance of ethical code of conduct while executing the different task and while with emphasis on how to relate with other employees in an organization.
