A STUDY ON THE ROLE AND FUNCTION OF AMSTEEL CASTING

INTRODUCTION

- ❖ Launched in 1996, amsteel casting has fast surpassed several of its more established competitors in becoming a lending global supplier of steel and alloy casting. locate in hosur, india, about 4km/25miles from bangalore, amsteel casting is well supported by the city 1/2 S global connectivity and abundant skilled workforce
- ❖ The company supplies raw and machined casting in various carbon steel, alloy steel, stainless steel, duplexstainless steel and nickel based alloy grades to cater to critical application in a diverse range of industries, in compliance with various international specifications
- ❖ Amsteel casting is an ISO 9001 certificate company with approvals for a variety of marine and nuclear application along with its affiliate electralloy special steel casting, the company can accommodate a diverse portfolio of casting grades and sizes

ELECTRALLOY

Electralloy special steel casting private limited, with its reduced capacity and smaller furnace size, allow amsteel castings 1/2 clientele the flexibility in order size and quantities needed for optimal inventory control policies. this flexibility in supply chain practices gives amsteel casting a unique advantage over its competitors

COMPANY PROFILE

Year established	1996
Installed capacity	5400 metric tons
	(Annual)
Employees	150
Building up area	40000 Sq , FEET

Production %exported 95%

DESIGN

To successfully address customer requirement, amsteel casting and electralloy special steel casting have a team of engineers with substantial experience in drafting, dimensional analysis and methoding practices. The companies use a variety of 3D modeling software to illustrate the castability of a given product.

To supplement over 30 year of experience in methoding practices, the companies also use proprietary solidification modeling software to detect hot spots and possible shrinkage defects. the integrity of each of our casting is verified through stringent quality control

APPLICATIONS

- Valve / Fluid control
- Pumps
- OFE
- Nuclear
- Petrochemical
- Earth Moving/ Construction
- General Engineering

MATERIAL

Amsteel casting handles all the major international specification standards including ASTM,BS ,DIN ,JIS,IS etc. The common grades poured at the company are listed below. Please contact us for any additional grade requests

Carbon Steel
Alloy steel
Duplex steel
Stainless steel

CONCLUSION

This intership has been a very usefully experience for me .I can safely say that my conderstanding of the job environment has increased guatly however I to think that there are some aspect of 5he job that it's could have done better and that I used need to work on the over all experience was positive and everything I learned would be useful in my future career in this field
