INTERNSHIP REPORTACKNOWLEDGEMENT

First, I would like to thank the Almighty for providing me with everything that I required in completing this project.

I acknowledge with thanks the kind patronage, loving inspiration and timely guidance which I have received from Mr. S. S. RETHISHVAAR, DATA ANALYST at Boston IT Solutions India.

I extend my thanks to my parents and well-wishers for their constant support and encouragement.

EXECUTIVE SUMMARY

The vial portion of my under-graduate course is drawn from the 1st day internship program at Boston Company (Bachelor in Computer Science). Mainly due to the fact that most students start their desired industrial field without having any prior job experience. The internship program enhances the depth of learning.

SUMMARY

I worked as an intern for the company that delivers finished Full Stack Development.

LEARNING

I had exposure to numerous project components throughout this assignment. I first learned to create a website, logos and how to publish a website. We designed our own website entitled SUPERMARKET RETAIL.

I finally experienced more about website development professionally.

Place: Hosur.

OBJECTIVE

WEEK 1:

- We learnt about Boston.
- The introduction of data science, web development and AI was given.
- We were given topics and we were divided into groups of five members each.
- We were told to explore the topic and the basic doubts were cleared in the sessions.
- Our interest over the topic was discussed.
- We were asked to explain about the topic to the whole class.
- The source code and the related topics were taught as a group.

WEEK 2:

- Firstly, we learnt how to create a website using wix.com.
- And then we listed the requirements and details needed for our web.site
- Then we created a logo based on our products.
- And then we add many varieties of products in our site with the details of discounts for some products.
- We did the project presentation as a team and we were given some corrections and suggestions.
- We did some changes in our site, and we added the facility for customers to buy through online also.
- We added many products and gave offers according to that.
- And finally we published our website on SUPERMARKET RETAIL.
