Overcoming Exam Fear And Nervousness

It is important to avoid negative thinking and catastrophizing, as these will only make your anxiety worse. Instead, focus on positive thinking and affirmations. This will help you focus on the material and not the test itself.

Another helpful technique is to practice breathing and meditation before the exam.

Overcoming Exam Fear and Nervousness

Reviewing Previous exam papers can help you avoid the same mistakes that made you panic the first time around. Taking daily breaks is also a good idea. You can also take up physical activity, which will help you stay fit. While exam stress may cause depression, it is important to stay physically healthy.
