Respected Madam,

Sub: Seeking permission to conduct a workshop on Rainwater Harvesting – Reg.

I place a request to grant permission for the Department of English to conduct a workshop for II Nutrition and Dietetics on **Mastering Rainwater Harvesting Systems** on 19.09.2018 We value your guidance and support in such initiatives, and eagerly await your kind permission to proceed.

Thanking You

(Dr. K. Lavanya)

Workshop on Mastering Rainwater Harvesting Systems

Department of English organized workshop on Water Harvesting. The workshop delved into various methods and techniques of rainwater harvesting, including rooftop collection, surface runoff management, and groundwater recharge. On 19.09.2018 Ms. Monisha, Assistant Professor, Department of English provided detailed explanations of each method, highlighting their practical applications and implementation strategies. She commenced the workshop with an introduction to rainwater harvesting, emphasizing its importance in mitigating water scarcity and promoting environmental sustainability. Participants gained an understanding of the concept and its relevance in the context of global water challenges.

Workshop On

The Art of Rainwater Harvesting: A Path to Sustainable Water Management

The Department of English organized workshop on Rainwater Harvesting. Rainwater harvesting is an age-old practice that has gained renewed attention in recent years due to growing concerns about water scarcity, climate change, and sustainable resource management. Often referred to as the "art" of rainwater harvesting, this technique involves collecting and storing rainwater for various uses, such as irrigation, household chores, and groundwater recharge. On 20.10.2022 Ms. Ashwini, Assistant Professor, Department of Computer Science addressed the challenges and considerations associated with rainwater harvesting, including regulatory barriers, water quality concerns, maintenance requirements, and upfront costs. Participants engaged in discussions on overcoming these challenges and implementing sustainable solutions.
