Creating Awareness on Biofertilizer Cultivation-Azolla

PERMISSION LETTER

Date: 25.08.2022

From

The Head of the Department,
Department of Biotechnology,
St. Joseph's College of Arts and Science for Women,
Hosur.

To

The Principal,
St. Joseph's College of Arts and Science for Women,
Hosur.

Sub: Seeking permission to conduct extension activity-Reg.

Respected Madam,

The Department of Biotechnology is planning to conduct extension activity in the village Vadrapallyam on the theme "Creating awareness about Biofertilizer cultivation- Azolla". We are planning to visit the village twice during this academic year and provide them service. The date of visit will be planned during the weekends. I request you to grant permission to proceed with the extension activity.

**Extension Activity Report
Academic Year: 2022-2023**

Department: Biotechnology

Theme of the Extension Activity: Creating awareness on Biofertilizer cultivation- Azolla

Venue: Vadrapallyam

Date: 28/08/2022 and 12/02/2023

Report

Vadrapallyam is a village situated 12 km away from Hosur. The Village was very small with a very little population. Agriculture is the main profession of this village. The students of III and II-B.Sc. Biotechnology, from the Department of Biotechnology took initiative in conducting the extension activity in the village on the theme "Creating awareness about Biofertilizer Cultivation-Azolla". The students went to the village twice during the academic year. As part of our extension activity, we took our goal to save the nature and the environment to promote the use and benefits of natural fertilizers among the residents of Vadrapallyam.

Our primary goal was to promote and implement the use of natural fertilizer as an alternative for chemical fertilizer to avoid soil pollution and enhance the growth of agricultural crops. We provided practical demonstrations to cultivate Azolla and provided the residents a few samples which we have already cultivated in the college campus. Azolla is not only a Biofertilizer that can be used for crops, but it can also be used as feed for cattle. Since many of the houses are provided with cattle, the people of Vadrapallyam felt this as a very useful feed for crops as well as cattle. The people understood the benefits of Azolla and they gained a very useful idea on alternative fertilizer which is harmless to plants and animals.

Our extension activity in Vadrapallyam village was very satisfying as it inculcated the use of natural products which are not harmful to the environment, by which the nature and beauty of the village is restored. By creating awareness to the villagers with knowledge of cultivating and using natural fertilizer, we have emphasized the importance of the natural resources and saving the environment for our future generations.

Awareness on Chemical Causes Cancer

ST. JOSEPH'S COLLEGE OF ARTS AND SCIENCE FOR WOMEN, HOSUR

DEPARTMENT OF CHEMISTRY

EXTENSION ACTIVITY REPORT (21.09.2022)

An awareness program on pollution control was organized for the students of Hosur Corporation Primary School- zuzuvadi, Hosur. On 21.09.2022. The objective of the program was to educate and sensitize the young minds about the various types of pollution, their impacts on the environment and human health, and the measures that can be taken to mitigate and prevent pollution and chemical causes of cancer and to educate them on how to minimize their exposure to carcinogenic substances in their daily lives.

The pollution control awareness program had a positive impact on the students. They gained a better understanding of the consequences of pollution and the urgency to take action. The interactive nature of the program encouraged active participation and made the concepts relatable to their lives. Many students expressed their commitment to making changes in their behavior and encouraging their families to adopt pollution control measures.

The pollution control awareness program for school students served as an essential step in building a generation that is conscious of environmental issues and actively works towards their resolution. By empowering the youth with knowledge and fostering a sense of responsibility, the program aimed to contribute to a cleaner and healthier future for our planet.

Awareness on Chemical Causes Cancer

Department of Chemistry

Date : 21-09-2022

Place : Hosur Corporation Primary School -Zuzuvadi, Hosur.

Event name : Extension activity-
Awareness programme on Chemical causes cancer

Organizer : π -Bond club, Department of chemistry.

Beneficiaries : Hosur Corporation Primary School -Zuzuvadi, Hosur.

No. Of students :

Topics Discussed : 1. Avoid Junk food
2. Cancer causes Chemical food
3. Take Healthy Foods
4. Prevention of Cancer

Feedback:

The session was very useful.
Our students were very interested with
the awareness class. They understand
clearly and aware of junk foods.
They thought us safety measures.

Hosur - 635126

Respected Sister,

Sub: Request to grant permission for conducting an awareness program on how to practice consistent Health Habits - Reg

On behalf of RRC I am writing to request permission to conduct a session on "Promoting Consistent Health Habits" on September 26, 2022, at Beegisettipalli. The session aims to educate the villagers about the importance of maintaining consistent health habits for their overall well-being. Thanking you

Yours Sincerely,

(Dr. P. Sanguvathi)

ST. JOSEPH'S COLLEGE OF ARTS AND SCIENCE FOR WOMEN, HOSUR

Academic Year	2022-2023
Title	Practice of consistent Health Habits
Date	26/09/2022
Mode	Offline
Venue	Beegisettipalli
Students participants	15
Staff participants	01
Coordinators	Dr.P.Sanguvathi

Objectives: To create awareness on Consistent Health Habits

Report: Promoting Consistent Health Habits

Number of Student Participants: 15

A session on promoting consistent health habits was held at Beegisettipalli on September 26, 2022. Fifteen students actively engaged in discussions and activities aimed at cultivating and maintaining healthy lifestyle habits. Topics included regular exercise, balanced nutrition, adequate sleep, and stress management techniques. Through interactive sessions and practical demonstrations, participants gained insights into the importance of consistency in maintaining overall well-being. The event emphasized the significance of adopting healthy habits early in life for long-term health benefits. Overall, the session contributed to empowering students to make positive choices for their health and well-being.

Extension Activity Report
Academic Year: 2022 -2023

Department: Physics

Theme of the Extension Activity: Solar energy and Save energy

Venue: Pyarakanahally

Date: 21/08/2022 and 05/02/2023

Report

The extension activity conducted to raise awareness about solar energy and promote its utilization for saving resources in Pyarakanahally Village near Muthuganapalli, located in Hosur, Tamilnadu. The students of Department of Physics, took initiative in conducting the extension activity in the village on the theme "Save energy & Solar energy". The initiative aimed to educate the villagers about the benefits of solar energy and encourage them to adopt sustainable practices to reduce their dependency on traditional energy sources.

Conducted live demonstrations of solar panel installations to showcase their functionality and efficiency. Villagers were given the opportunity to observe how solar panels work and understand their potential for generating electricity.

The extension activities significantly increased awareness about solar energy among the villagers, with many expressing interest in adopting solar power for their homes. A considerable number of households in Pyarakanahally Village opted to install solar panels following the awareness campaign, leading to a reduction in their reliance on traditional energy sources.

Establish a monitoring and evaluation framework to assess the long-term impact of solar energy adoption on the village's energy consumption patterns and environmental sustainability.

The extension activity on solar energy awareness and savings in Pyarakanahally Village has been successful in promoting the adoption of renewable energy sources and fostering a culture of sustainability within the community. Continued efforts in this direction are essential for achieving broader environmental goals and improving the quality of life for villagers in Hosur, Tamil Nadu.

Department: English

Theme of the Extension Activity: Awareness on Tree Plantation and Sapling Donation

Venue: Barandhur

Date: 21.08.2022 and 05.02.2023

Report

The students conducted a door-to-door awareness campaign, engaging with the residents of Barandhur village. They shared information on the significance of nature conservation, the role of trees in maintaining ecological balance, and the impact of deforestation on the environment. A designated area within the village was identified for a tree plantation drive. The students, along with the villagers, actively participated in planting a variety of saplings. This hands-on activity not only contributed to the immediate environment but also served as a practical demonstration of the positive impact of tree plantation. The students arranged for the distribution of saplings to the villagers, promoting the idea of individual responsibility towards environmental conservation. Each household received saplings suited to the local climate and soil conditions, along with guidance on proper care and maintenance.

To reinforce the importance of nature conservation, interactive workshops were conducted. Topics covered included the benefits of afforestation, methods of waste reduction, and sustainable practices for a greener lifestyle. The students collaborated with local authorities to ensure the success of the initiative. This involved obtaining necessary permissions, coordinating logistics, and seeking support for future sustainability projects in the area. The extension activity yielded positive outcomes, including increased awareness among villagers regarding environmental conservation, a tangible contribution to the green cover through tree plantation, and the initiation of a sustainable mindset with the distribution of saplings.

These challenges provided valuable insights for future initiatives, emphasizing the need for thorough planning and continuous community engagement. The students' extension activity in Barandhur village, Hosur, was a commendable effort in fostering environmental consciousness and sustainable practices within the community. The positive impact witnessed during this initiative lays the groundwork for future collaborations and endeavors to create a greener and healthier living environment. We extend our gratitude to all participants, local authorities, and community members for their support and active involvement in making this extension activity a success.

Objective

To create an awareness on detrimental effects of plastic pollution

Report

Plastic-Free Awareness Campaign

On October 13, 2022, a Plastic-Free Awareness campaign was conducted offline in Balagiri, engaging 13 student participants. The initiative aimed to raise awareness about the environmental impact of plastic pollution and promote sustainable alternatives. Student's organized educational sessions, distributed informational materials, and led community clean-up activities to highlight the importance of reducing plastic usage. Participants actively engaged with local residents, encouraging them to adopt eco-friendly practices and minimize plastic waste. This campaign emphasized the urgent need for collective action to mitigate plastic pollution and foster a greener, healthier environment for present and future generations.

(Affiliated to Periyar University, Salem)
Mookandapalli, Sipcot, Hosur-635126

Extension Activity Report Academic Year: 2022-2023

Department: Chemistry

Theme of the Extension Activity: Organic Farming and Awareness on plastic usage

Venue: Perakkapalli

Date: 28/08/2022 and 12/02/2023 ✓

Report

Upon arrival in Perakkapalli, Hosur, we were warmly welcomed by the locals who were eager to learn and engage with us. The activity commenced with an interactive session highlighting the adverse impacts of plastic pollution on the environment, wildlife, and human health. Through presentations, videos, and discussions, we emphasized the importance of reducing, reusing, and recycling plastic to mitigate its harmful effects. We also underscored the significance of adopting eco-friendly alternatives such as cloth bags, biodegradable packaging, and reusable containers.

Following the plastic awareness segment, we transitioned into promoting organic farming practices as a sustainable alternative to conventional agriculture. We elucidated the benefits of organic farming, including soil health improvement, biodiversity conservation, and reduced chemical contamination of food. Through demonstrations and hands-on activities, we showcased various organic farming techniques such as composting, natural pest control methods, and crop rotation.

Furthermore, we engaged the villagers in practical exercises, encouraging them to initiate small-scale organic gardens in their households. We provided them with starter kits containing organic seeds, composting materials, and informational pamphlets to facilitate their transition towards organic cultivation. The extension activity proved to be highly impactful, fostering a sense of environmental consciousness and empowerment among the villagers. They expressed enthusiasm towards adopting sustainable practices and pledged to reduce their reliance on plastic while embracing organic farming techniques.

Awareness on Plastic Usage

నేమన బొంబ కలెజ్ విద్యార్థులు మాన గ్రామనికి
వచ్చి అవగాహన ఇచ్చారు. ప్రకృతి వివసానము
గురించి మరియు ప్లాస్టిక్ పదార్థాలు గురించి
వివరించారు. దాని మంచి చెడ్డలు గురించి తెలిపారు.
కొవన కొరెలు విద్యార్థులకు ధన్యవాదాలు
తెలుపుతున్నాము.

Translation:-

St. Joseph college girls visited our
village for awareness. They gave awareness
about plastic products which we use in our
daily life. They also explained us about the
effects of using plastics. We thank them
on behalf of our village people.

நாங்கள் மிகவும் மகிழ்ச்சியாக இருக்கிறோம்
 ஏனென்றால் கஜேப் கலை மற்றும்
 அறிவியல் படிக்கும் மாணவிகள் நெகிழிப்
 பற்றி விழிப்புணர்வை ஏகா குத்து எங்களுக்கு
 மிகவும் பயனுள்ளதாக உள்ளது சிணை
 உயோகத்தில் நெகிழியை தூர்வது என்ற
 விழிப்புணர்வை எங்க கிராம மக்களுக்கு
 அறிவுறுத்தலாக கூறினார்.

This is a wonderful concept about the awareness
 of Plastic and we come to know how we must avoid
 plastic in our day to day life and to control the
 usage of Plastic in our surrounding areas.

Title	Discovering Herbal Healing: Medicine Plant Awareness Programme
Date	24.09.2022
Mode	Offline
Venue	Mudhuganapalli
Students participants	10
Staff participants	02
Coordinators	Dr. D. BHUVANA & Dr. S. GEETHA

Objective:

To introduce students and staff to the medicinal properties of plants, fostering appreciation for traditional herbal remedies and promoting sustainable healthcare practices.

Report:

On 24.09.2022, the Medicine Plant Awareness Programme took place in Mudhuganapalli, engaging 10 students and 2 staff members. The objective was to deepen understanding of herbal healing and its potential benefits. Success was evident through active participation in plant identification sessions, discussions on medicinal plant uses, and demonstrations of herbal preparations. Participants expressed enthusiasm in learning about natural remedies, indicating increased awareness and appreciation for herbal medicine. Positive feedback and interest in further exploration of herbal healing underscored the program's success in promoting knowledge and awareness of traditional medicinal plants.

Extension Activity Report
Academic Year: 2021-2022

Department: Biotechnology

Theme of the Extension Activity: Awareness about the power of Medicinal Plants

Venue: Vadrapallyam

Date: 26.09.2021 and 27.02.2022

Report

Vadrapallyam is a village situated 12 km away from Hosur. The Village was very small with a very little population. Agriculture is the main profession of this village. The students of III and I - B.Sc. Biotechnology, from the Department of Biotechnology took initiative in conducting the extension activity in the village on the theme "Awareness about the power of Medicinal Plants". The students went to the village twice during the academic year. As part of our extension activity, we took our goal to conserve and utilize the natural herbs which are easily available in the villages. Our aim is to promote the uses and benefits of medicinal herbs among the residents of Vadrapallyam. Our primary goal was to promote the use and conservation of medicinal plants. Medicinal plants have been used for thousands of years across various cultures and civilizations to prevent, treat, and manage a wide range of health conditions. The use of medicinal plants encompasses traditional medicine systems like Ayurveda, Traditional Chinese Medicine (TCM), Indigenous healing practices, and modern herbal medicine. With the rising demand for Indian medicinal plants, there is also a growing concern about overharvesting and habitat destruction.

We took Efforts to conserve and sustainably manage these plants to ensure their availability for future generations. We provided practical demonstrations to cultivate these plants and the benefits of these plants and provided the residents a few samples of easily available medicinal plants and insisted their uses. Though they had knowledge about the use of medicinal plants for home remedies, they understood the wide range of uses and the value of medicinal plants in Traditional Medicine, Herbal Medicine, Phytotherapy, Aromatherapy, Nutraceuticals, Traditional Healing Practices, Modern Medicine and Research and Development.

Our extension activity in Vadrappallyam village was very satisfying as it inculcated the use of several Indian herbs and their promising results in treating conditions such as diabetes, arthritis, cardiovascular diseases, and even certain types of cancer. As people seek natural and holistic approaches to health and wellness, Indian medicinal plants are likely to play an increasingly important role in healthcare

Importance of Medicinal Plants - Feedback

ಕಾಲೇಜಿನ ಯುಕ್ಕಿಳು ನಮಗೆ ಒಂದು ಉಪಯೋಗವಾಗಿ
ಗಿಡವು ಬಗ್ಗೆ ತಿಳಿಸಿಕೊಟ್ಟರು. ಅದರಿಂದ ಏನೆಲ್ಲ
ಉಪಯೋಗವಾಗಬಹುದು ಎಂಬ ಚಿಕ್ಕ ಯಾತ್ರೆ
ಹೊಳೆದರು. ಅದು ನಮಗೆ ಮೆಂಬ ಉಪಕರವಾಗಿದೆ
ನಮಗೆ ಈ ಯಾದಲು ಮದಿನೆ ಇದೆ ಇದು
ಎಂದು ತಿಳಿದರಲ್ಲ. ಈ ಮೇಳೆಗೆ ಗಿಡದಿಂದ
ನಿಜವು ಕೊಡುವ ಯುಕ್ತ ಇತರ ಲೋಕ
ನಮಸ್ಕರಿಸಲು ನಿವಾಸಿಸುವುದು. ಎಂದ
ತಿಳಿಸಿಕೊಟ್ಟಿದ್ದಾರೆ.

ಇಂತಿ.

ಜಯಮ್ಮ

Collage students thought us a usefull
'Medicinal plant'. They thought us the
uses of the Medicinal plant and the
Benefits of medicinal plant in small
words. That was very usefull to us.
First day they taught us very usefull
thing about Tulasi medicinal plant. It is
very good for our health. We can cure
all the disease from this medicinal plant.

Your Faithfully
Jayamma.

Sub: Seeking permission to conduct extension activity-Reg

Respected Sister,

The department of Chemistry is planning to conduct extension activity in the village Perkkapalli on the theme "Organic Farming and Awareness on Plastic Usage". We are planning to visit the village twice during this academic year and provide them service. The date of visit will be planned during the weekends. I request you to grant permission to proceed with the extension activity.

Your's Sincerely

Extension Activity Report Academic Year: 2021-2022

Department: Chemistry

Theme of the Extension Activity: Organic Farming and Awareness on plastic usage

Venue: Perakkapalli

Date: 26/09/2021 and 27/02/2022 ✓

Report

The village of Perakkapalli is located 16 kilometers from Hosur. The villagers live in great harmony with one another. This village's primary occupation is agriculture. There's a primary school in the village. The students of I. B.Sc. Chemistry, from the department of Chemistry took initiative in conducting the extension activity in the village on the theme "Organic Farming and Awareness on plastic usage". The students went to the village twice during the academic year. The primary objective of the extension activity was to educate the residents of Perkkapalli about the detrimental effects of plastic pollution on the environment and to advocate for the adoption of organic farming methods as a sustainable alternative.

Upon arrival in Perkkapalli, students divided into groups and conducted door-to-door visits to engage with residents. Armed with informational pamphlets and visual aids, students initiated conversations about the environmental impact of single-use plastics, emphasizing the importance of reducing, reusing, and recycling plastic waste. Furthermore, students organized interactive sessions and demonstrations on organic farming techniques, highlighting the benefits of chemical-free cultivation for soil health, biodiversity, and human health. Through hands-on activities such as composting demonstrations and seed planting, residents were encouraged to embrace organic farming practices and reduce reliance on chemical inputs.

The extension activity had a significant impact on the residents of Perkkapalli, fostering awareness and inspiring action towards sustainable living practices. Many residents expressed newfound knowledge about the harmful effects of plastic pollution and showed enthusiasm for transitioning to organic farming methods. By actively participating in raising awareness and advocating for sustainable practices, students developed leadership skills and a deeper understanding of environmental issues.

Extension Activity Report

Academic Year 2021-22

Department: English

Theme of the Extension Activity: Awareness on Tree Plantation and Sapling Donation and Awareness on Nature Conservation

Venue: Barandhur

Date: 19.9.2021 and 13.2.2022 ✓

Report

Barandhur is a small village secured by Muduganapally panchayat, Hosur taluk, Krishnagiri district, Tamil Nadu. Extension activity was planned for this village, Barandhur with a vision to promote awareness about tree plantation and environmental conservation. It was also planned to donate tree saplings to the residents of the village as an initiative towards nature conservation. A man's life in harmony with nature will be blessing to him and to his posterity.

Students from the Department of English were taken to the village and were encouraged to talk with its residents and to know about the ecosystem and biodiversity there. The students were eager to know about the environmental concerns in the village. The villagers were donated plant saplings as an initiative towards tree plantation. The students talked to them about deforestation and afforestation and the role of each individual in contributing to a greener planet.

Environmental conservation and tree plantation are integral components of efforts to address global environmental challenges such as climate change, biodiversity loss, and land degradation. By promoting tree planting initiatives and implementing effective conservation strategies, we can protect ecosystems, safeguard biodiversity, and ensure a sustainable future for generations to come.

With these agenda, the visit to the village Barandhur proved to be a meaningful and successful one. The Department of English remains committed to such initiatives, contributing to a greener and healthier future.

Objective:

To educate students and staff about the importance of proper dustbin usage and waste management practices to maintain cleanliness and hygiene in Sollapuram.

Report:

On 23-09-2021, a Dustbin Usage Awareness Programme was conducted in Sollapuram, with 10 students and 2 staff members participating. The objective was to raise awareness about the proper disposal of waste and encourage the use of dustbins. Success was evident as participants actively engaged in discussions and demonstrations on waste segregation and disposal methods. Additionally, observations post-program revealed improved adherence to dustbin usage and reduced littering in the area, demonstrating the program's success in promoting responsible waste management practices.

Extension Activity on Promoting Awareness on Healthy Food in Dinnur Village

Department: Nutrition and Dietetics

Title: Promoting Health and Hygiene Awareness

Venue: Dinnur

Date: September 19, 2021, and February 13, 2022

Report: Extension Activity on Promoting Health and Hygiene Awareness in Dinnur Village
On September 19, 2021, and February 13, 2022, students from the Department of Nutrition and Dietetics at St. Joseph's College of Arts and Science for Women conducted an extension activity in Dinnur village. The primary objective was to raise awareness about health and hygiene practices among the villagers.

During the two-day activity, various initiatives were implemented to engage the community and disseminate knowledge on maintaining good health and hygiene. Interactive sessions were conducted to educate villagers on the importance of personal hygiene, such as hand washing, dental care, and sanitation practices. Additionally, students provided demonstrations on proper hand washing techniques and distributed hygiene kits containing soap, toothpaste, and other essential items. The impact of the extension activity was significant, with villagers showing a notable improvement in their awareness and adoption of health and hygiene practices. There has been an observable increase in the frequency of handwashing, proper sanitation practices, and utilization of hygiene products among the villagers. Moreover, instances of common health issues such as gastrointestinal infections and dental problems have seen a decline. The engagement of community leaders and local stakeholders has further facilitated the sustainability of the initiative. Ongoing efforts are being made to reinforce the importance of health and hygiene practices through regular follow-up sessions and community outreach programs. In conclusion, the extension activity conducted by the students from St. Joseph's College of Arts and Science for Women has played a crucial role in promoting health and hygiene awareness in Dinnur village.

Translation :

St. Joseph College students came to our Village and told us about how to keep house, surroundings and kitchen clean and to sanitize. What foods should be given to children, adults and old people. How to clean ourselves. Some of these informations were very useful to us. We will follow all these things from today onwards.

Thankyou.

Academic Year: 2021-
2022**

Department: Physics

Theme of the Extension Activity: Solar energy and Save energy

Venue: Pyarakanahally

Date: 19/09/2021 and 13/02/2022

Report

"Pyarakanahally, near Muthuganapalli, is situated 5 km away from our college." People of this village live in a very peaceful manner. The students of the Department of Physics, took initiative in conducting the extension activity in the village on the theme "Solar and Save Energy". The students went to the village twice during the academic year.

As part of our extension activity, we embarked on a journey to promote solar and wind energy and raise awareness about energy source-related fraud among the residents of Pyarakanahally. With abundant sunlight available throughout the year, harnessing solar energy presents a promising avenue for addressing the village's energy needs while mitigating environmental impact.

The extension activities on solar energy and energy conservation have made significant strides in raising awareness and promoting sustainable practices within the village community and also efforts undertaken to raise awareness about solar energy and its benefits within the Pyarakanahally community.

St. Joseph's College of Arts and Science for Women, Hosur.

Swachh Bharath Report- Clean India

The Swachh Bharath of St. Joseph's College of arts and science for women, Hosur organized a "Clean India" event on 02.10.2021. The campaign aims to achieve the vision of a 'Clean India' by 2nd October 2021.

On October 2, Our College 25 students actively participated in the Swachh Bharat Abhiyan by organizing a cleanliness drive in Mudugandanahally. On a mission to transform the locality, students equipped themselves with eco-friendly cleaning tools on 02.10.2021. Tackling litter and waste, they diligently cleaned public spaces, contributing to the overall hygiene and aesthetics of Mudugandanahally. This hands-on initiative not only aligns with the national Swachh Bharat mission but also underscores the college's commitment to fostering a sense of social responsibility among its students. By engaging in community-driven activities, these students exemplify the principles of cleanliness and civic duty, making a positive impact on Mudugandanahally.

SWACHH BHARATH COMMITTEE

Keep Village Clean Awareness Report

DATE:21.10.2021

The Swachh Bharath Committee of St. Joseph's college of arts and science for women, Hosur organized a 'Keep Village Clean Awareness' on 21.10.2021. The campaign aims to achieve the vision of 'Keep Village Clean Awareness' by 21st October 2021.

Our College students actively participated in the Swachh Bharat by organizing a cleanliness drive in Mudhunapalli. Raise awareness about the importance of cleanliness and its impact on health. Encourage community participation in cleanliness drives and waste management initiatives. Promote behavioral change towards responsible waste disposal and sanitation practices. Enhance the overall cleanliness and aesthetics of the village environment.

Organized regular cleanliness drives where villagers came together to clean streets, public spaces, and water bodies. Volunteers visited households to spread awareness about waste segregation, composting, and the proper use of dustbins. Organized competitions such as best-maintained garden or cleanest street to incentivize community involvement and pride in cleanliness efforts. Increased awareness and understanding of the importance of cleanliness and hygiene practices among villagers. Improved waste management practices, including segregation at source and proper disposal methods. Reduction in littering and open defecation incidents within the village. Enhanced community participation and ownership in maintaining a clean environment. Positive changes in attitudes and behaviors towards cleanliness, reflected in the overall improvement of the village's cleanliness rating.

The Keep Village Clean awareness campaign has made significant strides in promoting cleanliness and hygiene practices within the village community. By fostering a sense of ownership and responsibility among villagers, the campaign has contributed to a cleaner and healthier environment. Continued efforts and community engagement are crucial for sustaining these positive outcomes in the future.

Academic Year	2021-2022
Title	VISIT TO CREATE AWARENESS ON ENVIRONMENTAL CLEANLINESS
Date	22.12.2021
Mode	Offline
Place of Visit	Balagiri
Students Participants	14
Staff Participants	02
Coordinators	Mrs.C.Hemalatha,Mrs.M..Shobanapriya
Objective	

To create the awareness about Environmental cleanliness.

Report:

Balagiri visit focused on the importance of environmental cleaning. Environmental cleaning is not just a task but a collective responsibility that requires the participation of individuals, communities, governments, and industries. The visit created awareness on the importance of maintaining a clean and sustainable environment; through this awareness the people can work towards a healthier, more resilient planet for current and future generations which inculcated the awareness among the people through which they can achieve a balance between human activities and the preservation of the natural world.

Objective:

To educate students and staff about COVID-19 prevention measures and promote adherence to safety protocols to mitigate the spread of the virus.

Report:

On 27-01-2021, a COVID-19 Prevention Awareness program was conducted at St. Joseph's College of Arts and Science for Women, with 16 students and 5 staff members participating. The objective was to increase understanding of preventive measures such as mask-wearing, hand hygiene, and social distancing. Success was evidenced by active engagement during educational sessions, compliance with safety protocols, and commitment to promoting prevention practices within the college community. Feedback indicated heightened awareness and readiness to implement preventive measures, reflecting the program's effectiveness in empowering individuals against COVID-19.

St. Joseph's College of Arts and Science for Women, Hosur.

Swachh Bharath Report- Clean India

The Swachh Bharath of St. Joseph's College of arts and science for women, Hosur organized a "Clean India" event on 02.10.2020. The campaign aims to achieve the vision of a 'Clean India' by 2nd October 2020.

On October 2, Our College 20 students actively participated in the Swachh Bharat Abhiyan, undertaking a cleanliness drive at the local flower market. Embracing the spirit of Mahatma Gandhi's birthday, the students, armed with eco-friendly cleaning materials, meticulously cleared the area of litter and waste. Their dedication to the Swachh Bharat mission not only enhanced the visual appeal of the market but also promoted a cleaner and healthier environment. This hands-on approach to community service reflects the college's commitment to instilling values of cleanliness and social responsibility in its students, contributing positively to the broader national initiative.

Extension Activity Report

Academic Year: 2019-2020

Department: Biotechnology

Theme of the Extension Activity: Creating awareness on Biofertilizer cultivation- Azolla

Venue: Vadrapallayam

Date: 28.07.2019 and 05.01.2020

The Department of Biotechnology organized an extension activity in Vadrapallayam on July 28, 2019, and January 5, 2020, with the theme of creating awareness on biofertilizer cultivation, focusing on Azolla. The objective was to educate villagers about the benefits of Azolla as a sustainable and eco-friendly alternative to chemical fertilizers.

During the two-day activity, various initiatives were undertaken to engage the community and disseminate knowledge about Azolla cultivation. Interactive sessions were conducted to explain the process of cultivating Azolla and its role in improving soil fertility and crop productivity. Participants were provided with hands-on training on setting up Azolla beds and maintaining optimal growth conditions. Furthermore, demonstration plots were established in the village to showcase successful Azolla cultivation practices. Villagers were encouraged to adopt Azolla cultivation in their agricultural practices to reduce dependency on chemical fertilizers and promote sustainable farming methods. The impact of the extension activity was evident in the increased awareness and adoption of Azolla cultivation among the villagers. Many farmers reported improvements in soil health and crop yields after incorporating Azolla into their farming practices. Additionally, the use of Azolla as a biofertilizer has led to a reduction in chemical fertilizer usage, resulting in cost savings and environmental benefits. The engagement of community leaders and local stakeholders has been crucial in sustaining the initiative. Efforts are ongoing to provide continued support and guidance to villagers interested in Azolla cultivation through follow-up sessions and technical assistance. The Extension activity on creating awareness on biofertilizer cultivation, specifically Azolla, has contributed to improving agricultural practices and promoting sustainable farming in Vadrapallayam. Through education, demonstration, and community engagement, the initiative has empowered villagers to adopt eco-friendly farming methods for a healthier environment and improved livelihoods.

Creating Awareness on Biofertilizer Cultivation-Azolla Feedback

ಕೆಲವರಿಗೆ ಬುಕ್ಕುಗಳ ಬಾಡು ನಮ್ಮ ಫೆರ್ಟಿಲೈಸರ್
ಬಗ್ಗೆ ತಿಳಿಸಿಕೊಟ್ಟಿತು. ಫೆರ್ಟಿಲೈಸರ್ ಕೆಲವು
ಬಯೋಲೋಜಿಕಲ್ ಬಾಡು ಆದ. ಫೆರ್ಟಿಲೈಸರ್‌ನನ್ನು
ಕೃಷಿಯಾ ಬಳಸುತ್ತಾರೆ. ಫೆರ್ಟಿಲೈಸರ್‌ನನ್ನು ಪ್ರತಿ
ಬೆಳೆಗ್ಗುವ ಫಲವಾಗಿ ಬಯೋಲೋಜಿಕಲ್‌ನಲ್ಲಿ.
ಬಾಡು ನಮ್ಮಗೆ ತಿಳಿಸಿ ಕೊಟ್ಟಿತು. ಬುಕ್ಕುಗಳ
ಬಾಡು ಫೆರ್ಟಿಲೈಸರ್‌ನ ಬಳಕೆಯನ್ನು ನಮ್ಮಗೆ
ತಿಳಿಸಿಕೊಟ್ಟಿತು.

College students came to our Village
and taught us about Azolla Cultivation. It
uses in many Ways like Feeding plants. It has
Nutritional Value so that many Cows and birds
Could take this Azolla as a food for the purpose
to yield high product. These all things and
informations were got to know by College
students.

Creating Awareness on Biofertilizer Cultivation-Azolla Feedback

ರೀಲೇಡ್‌ನ ಮಕ್ಕಳು ಬಂದು ನಮಗೆ
ಅಡ್ಡಲಾದ ಬಗ್ಗೆ ತಿಳಿಸಿಕೊಟ್ಟರು. ಇವರು
ಅಡ್ಡಲಾಣದ ಅನುವ ಒಲೆಯೋಗಗಳು
ಹೇಳಿದ್ದರು. ಅಡ್ಡಲಾ ಗಾಳಿಯಿಂದ
ನಿರಂಜನಕವನ್ನು ನಿರೂಪಿಸುತ್ತದೆ ಮತ್ತು
ಅದನ್ನು ಪ್ರದೇಶಗಳ ಆಹಾರವಾಗಿ
ಉಪಯೋಗಿಸಬಹುದು.

College students came and told
about azolla, how it works
and how to grow easily. Azolla
fixes nitrogen from the air
and stores this in its leaves.
Azolla is also used for the food
of animals and we can use this
as a manure too.

Extension Activity on Promoting Awareness on Healthy Food in Dinnur Village

Department: Nutrition and Dietetics

Title: Healthy Food

Venue: Dinnur

Date: July 7, 2019, and December 8, 2019

On July 7, 2019, and December 8, 2019, students from St. Joseph's College of Arts and Science for Women, specifically from the Department of Nutrition and Dietetics, undertook an extension activity in Dinnur village. The primary objective was to promote awareness of healthy food choices and nutrition among the villagers. During the two-day activity, various initiatives were implemented to engage the community and disseminate knowledge on healthy eating habits. Interactive sessions were conducted to educate villagers on the importance of balanced nutrition, including the benefits of consuming fruits, vegetables, whole grains, and lean proteins. Additionally, students provided demonstrations on meal preparation techniques that emphasized nutritious ingredients and portion control. Moreover, students organized cooking demonstrations, where villagers had the opportunity to learn how to prepare simple and nutritious meals using locally available ingredients. The impact of the extension activity was notable, with villagers showing a keen interest in adopting healthier dietary practices. Over time, there has been a noticeable improvement in the dietary habits of the villagers, as evidenced by increased consumption of fruits, vegetables, and whole grains. Moreover, villagers have reported feeling more energetic and experiencing improvements in their overall health and well-being.

Furthermore, the engagement of community leaders and local stakeholders has facilitated the sustainability of the initiative, as ongoing efforts are made to reinforce the importance of healthy eating and provide continued support and guidance to the villagers.

In conclusion, the extension activity conducted by the students from St. Joseph's College of Arts and Science for Women has had a significant positive impact on promoting awareness of healthy food choices in Dinnur village.

Objective:

To raise awareness among students and staff about the detrimental effects of plastic usage on the environment, and to promote the adoption of sustainable alternatives to reduce plastic consumption.

Report:

On 16.12.2019, a session on the awareness of plastic usage was conducted in Begepalli, with participation from 10 students and 2 staff members. The objective was to educate attendees about the environmental consequences of plastic pollution and to encourage the adoption of eco-friendly practices. Success was evidenced by active engagement during discussions, heightened awareness regarding plastic waste management, and pledges made by participants to reduce their plastic usage. The program effectively instilled a sense of responsibility towards environmental conservation, indicating its success in promoting sustainable habits among attendees.

Objective:

To conduct a housekeeping visit to an old age home in Sion Malai, providing assistance with cleaning tasks and fostering intergenerational interaction to promote social connection and support for elderly residents.

Report:

On 16.09.2019, 10 students and 2 staff members engaged in a housekeeping visit to the old age home in Sion Malai. The objective was to offer practical assistance with cleaning tasks while fostering meaningful interactions between the students and elderly residents. Evidence of success includes the visible improvement in the cleanliness and tidiness of the premises, as well as the joy and appreciation expressed by the residents for the companionship and assistance provided by the visiting students. The program effectively achieved its goal of promoting social connection and support for the elderly, enriching both the residents' and participants'.

Sub: Seeking permission to conduct extension activity-Reg

Respected Sister,

The department of Chemistry is planning to conduct extension activity in the village Perkkapalli on the theme "Organic Farming and Awareness on Plastic Usage". We are planning to visit the village twice during this academic year and provide them service. The date of visit will be planned during the weekends. I request you to grant permission to proceed with the extension activity.

Your's Sincerely

Extension Activity Report Academic Year: 2019-2020

Department: Chemistry

Theme of the Extension Activity: Organic Farming and Awareness on plastic usage

Venue: Perakkapalli

Date: 28/07/2019 and 05/01/2020 ✓

Report

The village of Perakkapalli is located 16 kilometers from Hosur. The villagers live in great harmony with one another. This village's primary occupation is agriculture. There's a primary school in the village. The students of I. B.Sc. Chemistry, from the department of Chemistry took initiative in conducting the extension activity in the village on the theme "Organic Farming and Awareness on plastic usage". The objective of raising awareness about plastic usage, pollution control, and promoting organic farming and fertilizer-free farming practices. The activity aimed to engage with residents through a question-and-answer format to foster understanding and promote sustainable practices.

The extension activity took the form of an interactive Q&A session conducted by students, accompanied by faculty members and volunteers. Teams of students visited different households in the village, engaging residents in discussions about plastic usage, pollution control, and sustainable farming practices. During the activity, students posed questions to residents about their knowledge and practices related to plastic usage, pollution prevention, and farming methods. Residents were encouraged to share their experiences, challenges, and perspectives on these topics, facilitating dialogue and exchange of ideas. Students also provided information and resources on eco-friendly alternatives to single-use plastics, pollution control measures, and techniques for organic and fertilizer-free farming. They emphasized the importance of adopting sustainable practices for environmental conservation and community well-being.

ಮೈಸೂರು ಇವರು ಹೊರಡಿದ್ದನ್ನು ನೋಡಿ ನಮಗೆ
 ಬಹಳ ಕುಳಿಯಾಯಿತು ನಾವು ಹಳೆಯ ಇವರು
 ಕಾರಣ ನಮಗೆ ಇದ್ದರ ಬಗ್ಗೆ ಲೇವಿ ತೆರಿಗೆ
 ಇರಲಿಲ್ಲ ಇವರು ಬಂದು ಹೇಳಿದ ಬಹಳ
 ಲೇವಿ ತೆರಿಗೆ ಇದುವಂತೆ ನಾವು ಇವರು ಹೇಳುವ
 -ದನ್ನು ನಾವು ಲೇವಿ ತೆರಿಗೆ.

They have fought for plastic awareness.
 We are in village so we don't know
 about that. This children have told us
 How to use plastic and about the plastic.
 Now we have a little bit knowledge about
 Plastic.

Thank you.

Academic Year: 2019-2020**

Department: Physics

Theme of the Extension Activity: Solar energy and Save energy

Venue: Pyarakanahally

Date: 07/07/2019 and 08/12/2019

Report

Pyarakanahally is a village situated 5 km away from our college. People of this village live in a very peaceful manner. Agriculture is the main profession of this village. The students of Department of Physics, took initiative in conducting the extension activity in the village on the theme "Save energy & Solar energy". The students went to the village twice during the academic year.

The extension activities led to a significant increase in awareness about energy conservation among Pyarakanahally villagers. Many residents gained a better understanding of the importance of saving energy and its impact on the environment.

Practical demonstrations were held to showcase energy-saving techniques and devices. Villagers were shown how to use energy-efficient appliances, lighting solutions, and insulation methods to reduce energy consumption in their homes. Villagers participated in discussions and interactive activities focused on sustainable living practices. Villagers reported considerable reductions in electricity bills post-transition to solar energy, resulting in significant long-term savings.

The extension activity on saving energy awareness and savings in Pyarakanahally Village has yielded promising results, indicating a positive shift towards sustainable energy practices. However, continued efforts are imperative to ensure broader adoption and long-term sustainability within the community.

Swachh Bharath Report- Clean India

The Swachh Bharath of St. Joseph's College of arts and science for women, Hosur organized a "Clean India" event on 02.10.2019. The campaign aims to achieve the vision of a 'Clean India' by 2nd October 2019.

In a commendable display of civic responsibility, Our College 50 students participated in a Swachh Bharat (Clean India) initiative on October 2. Focusing their efforts on the local flower market, the students actively engaged in cleaning and waste management activities. Armed with biodegradable cleaning supplies, they meticulously cleared litter, promoting hygiene and environmental consciousness. The initiative aligns with the broader national mission of Swachh Bharat Abhiyan, fostering a cleaner and healthier community. Through their collective action on Gandhi Jayanti, the students not only contributed to a pristine flower market but also embodied the principles of Mahatma Gandhi in practicing cleanliness and community service.

SWACHH BHARATH COMMITTEE

PROPER DISPOSAL OF SOIL AWARENESS

DATE:04.02.2020

The Swachh Bharath Committee of St. Joseph's college of arts and science for women, Hosur organized a 'Proper Disposal of Soil' on 04.02.2020. The campaign aims to achieve the vision of 'Proper Disposal of Soil' by 04.02.2020.

Our College students actively participated in the Swachh Bharat by organizing a cleanliness drive in Muduganapalli Soil is a valuable natural resource crucial for sustaining life on Earth. However, improper disposal of soil can lead to various environmental and societal issues. To address this concern, a public awareness campaign focusing on the proper disposal of soil is essential.

Soil is a vital resource that supports plant growth, biodiversity, and ecosystem health. Improper disposal of soil can lead to erosion, sedimentation of water bodies, loss of fertile land, and contamination of water sources. Proper soil disposal involves following regulations, such as avoiding dumping soil in unauthorized areas and using appropriate methods for soil remediation. Responsible soil management practices, such as composting, recycling, and soil erosion control, contribute to environmental sustainability and conservation efforts. Community involvement and cooperation are essential for the success of soil conservation initiatives. Increased Awareness: Measure the campaign's effectiveness by tracking the reach and engagement of educational materials and social media content.

Promoting proper disposal of soil through a comprehensive public awareness campaign is essential for safeguarding this valuable resource for future generations. By educating individuals and communities about responsible soil management practices, we can contribute to a more sustainable and resilient environment.

Proper Disposal of Soil Awareness

Extension Activity Report
Academic Year: 2019-2020

Department: English

Theme of the Extension Activity: Awareness on Tree Plantation and Sapling Donation

Venue: Barandhur

Date: 07/07/2019 and 08/12/2019 ✓

Report

Barandhur Village, situated 18kms away from Hosur, was selected for its proximity to our educational institution and its significance as an area with potential for environmental improvement. The purpose was to interact with the local community, understand their perspectives, and contribute towards sustainable practices.

The students of English department engaged with the local residents to understand their knowledge and awareness regarding tree plantation. Surveys and interviews were conducted to gauge the existing level of environmental consciousness within the community. Informative sessions were conducted to enlighten the villagers about the benefits of tree plantation. Discussions on environmental conservation, the impact of deforestation, and the role of each individual in contributing to a greener planet were held.

The main highlight of the visit was a tree plantation drive. Students and villagers actively participated in planting saplings in designated areas. The selection of native tree species ensured ecological compatibility and long-term sustainability. A substantial number of saplings were donated to the villagers for them to plant in their surroundings. Proper instructions on planting and nurturing the saplings were provided to ensure successful growth. Beyond the environmental agenda, cultural exchange programs were organized to strengthen the bond between the academic community and the villagers. This facilitated a holistic approach to community development.

The field visit to Barandhur Village was a successful endeavor, fostering environmental awareness and community engagement. The English Department remains committed to such initiatives, contributing to a greener and healthier future.

DEPARTMENT OF CHEMISTRY

EXTENSION ACTIVITY REPORT (29.11.2019)

On 29.11.2019, an awareness programme on waste management and pollution control was organized for the students of Government High School, Mookandapalli. The objective of the programme was to educate students about the importance of environmental conservation, sustainable waste management practices, and pollution control measures.

We began with informative presentations on the concepts of waste management and pollution control. Students were introduced to the different types of waste, including solid, liquid, and hazardous waste, as well as the various sources of pollution such as air, water, and soil pollution. Following the presentations, interactive discussions were held to engage students in exploring the environmental issues facing their community and potential solutions. Students actively participated in brainstorming sessions, sharing their ideas and insights on how they can contribute to reducing waste generation and minimizing pollution.

To provide practical learning experiences, hands-on activities were organized, including waste segregation demonstrations and pollution monitoring exercises. Students were guided through the process of segregating waste into different categories such as recyclable, biodegradable, and non-recyclable, emphasizing the importance of proper waste disposal practices. The awareness programme on waste management and pollution control proved to be an enriching and enlightening experience for the students of Government High School. By fostering a deeper appreciation for environmental conservation, the programme has equipped students with the knowledge and skills necessary to become responsible and environmentally conscious citizens.

Awareness Programme on Waste Management and Pollution Control

Department of Chemistry

Date : 29-11-2019

Place : Govt. High school, Matham Agraharam, Hosur.

Event name : Extension activity-
Awareness programme on waste management & pollution control

Organizer : π -Bond club, Department of chemistry.

Beneficiaries : Govt. High school students, Matham Agraharam, Hosur.

No. Of students : 70

Topics Discussed : 1. Plastics in Everyday life.
2. Merits & Demerits of Plastics.
3. Causes of Land, Air and water pollution.
4. 3R's of plastic.

Feedback:

The programme is very useful and informative. Thanks to those who have arranged this programme and organised and presented it successfully. Thank you very much

To

The Principal,

St. Joseph's college of Arts and Science for Women

Hosur 635 126.

Respected Madam,

Subject: Permission Letter for Awareness Campaign on Plastic

I am writing to seek permission to conduct an awareness campaign on plastic at Begepalli. This campaign aims to educate students and staff members about the harmful effects of plastic on the environment and to promote sustainable alternatives. The event will include interactive sessions, presentations, and discussions to raise awareness about the importance of reducing plastic usage and adopting eco-friendly practices. Thank you for considering our request. We look forward to your favorable response and the opportunity to make a positive impact on the community.

Academic Year	2018-2019
Title	Awareness about Plastic free
Date	03.07.2018
Venue	Begepalli
Students participants	10
Staff participants	02
Coordinators	Dr.D.BHUVANA & R.S. KARUNYA

Objectives:

- To create the awareness about Plastic free

Report:

On March 7, 2018, an awareness session regarding the necessity of living plastic-free was conducted offline at Begepalli, engaging a group of 10 student participants. The session aimed to highlight the detrimental effects of plastic on the environment and promote sustainable alternatives. Various strategies to reduce plastic usage were discussed, emphasizing the importance of recycling, reusing, and opting for eco-friendly alternatives. The participants actively engaged in discussions, expressing their concerns about the escalating plastic pollution crisis and pledged to adopt more environmentally friendly habits. Through this initiative, the participants gained valuable insights into the urgency of addressing plastic pollution and committed to spreading awareness within their communities, fostering a more environmentally conscious society.

Report on Solid Waste Management at S. Mudhagonapalli

Date: 10th August 2018

Time: 10:00 a.m - 12:30 p.m

Venue: S. Mudhagonapalli

Attendees: 10 students from I B.Com

Objective:

The objective of the survey on solid waste management was to understand the existing waste management practices in S. Mudhagonapalli village and identify areas for improvement. This survey aimed to collect data on waste generation, disposal methods, and awareness levels among residents, with the ultimate goal of helping the village implement more effective and sustainable waste management solutions.

The survey was conducted by the Department of Commerce, along with a group of ten dedicated students from I B.Com. The villagers of S. Mudhagonapalli participated willingly, providing insights into their daily waste disposal practices and discussing the challenges they face.

Survey Methodology:

The team used a structured questionnaire to conduct the survey, which included both open-ended and close-ended questions. The survey focused on gathering information about the types and quantities of waste generated, current disposal methods, awareness of recycling, and interest in sustainable practices.

The team conducted door-to-door surveys to gather data from households on their daily waste generation, separation practices, and disposal

habits. Questions also addressed residents' knowledge of waste segregation and willingness to adopt eco-friendly waste management techniques.

The survey included questions to assess villagers' awareness of the health and environmental impacts of improper waste disposal. The team also gathered feedback on the type of support or resources villagers felt were needed to improve waste management practices.

Findings:

The survey results highlighted several key points regarding solid waste management practices in S. Mudhagonapalli:

Soild Waste Management

Lack of Waste Segregation: Most households do not segregate waste into biodegradable and non-biodegradable categories, leading to mixed waste disposal.

Open Dumping and Burning: Many residents dispose of waste through open dumping or burning, unaware of the adverse effects on health and the environment.

Low Awareness of Recycling: A significant number of villagers were not aware of recycling practices or the benefits of composting organic waste.

Limited Waste Collection Infrastructure: The village lacks an organized waste collection and disposal system, with limited access to bins and waste segregation facilities.

Conclusion:

The solid waste management conducted by commerce department of St. Joseph's College of Arts and Science for Women, Hosur, in S. Mudhagonapalli provided valuable insights into the current waste management practices in the village.

AND SCIENCE FOR WOMEN, HOSUR**
(Affiliated to Periyar University, Salem)
Mookandapalli, Sipcot, Hosur-635126.

Awareness Campaign on Cleanliness in Public Places - Malaikovil

Date: 13th August 2018

Organized by: National Service Scheme (NSS)

Venue: Malaikovil Temple Premises

On the 13th of August 2018, the National Service Scheme (NSS) organized a cleanliness awareness campaign at the Malaikovil temple premises. The event aimed to emphasize the importance of maintaining cleanliness in public places and to inspire the community to actively contribute to a cleaner environment.

Objectives of the Campaign

The primary objectives of the campaign were:

To create awareness among visitors about the significance of cleanliness in public areas.

To educate the public on the health and environmental benefits of a clean environment.

To instill a sense of responsibility towards maintaining cleanliness among the locals and tourists.

The campaign saw enthusiastic participation from NSS volunteers, totaling 50 students from local colleges. These students took up various responsibilities, including organizing activities, conducting clean-up drives, and engaging with the public. The Malaikovil authorities and local community members also extended their support, ensuring the event's success.

Activities Undertaken

Clean-Up Drive: The campaign began with a clean-up drive around the temple premises and its surroundings. Volunteers equipped with gloves, masks, and cleaning tools cleared garbage, plastic waste, and other debris. The cleaned areas included the temple's main entry points, pathways, and adjacent parking lots.

Public Interaction: Volunteers engaged with temple visitors and local vendors, highlighting the need to maintain cleanliness. Pamphlets containing tips on waste management and the harmful effects of littering were distributed. Volunteers used placards with messages like "Cleanliness is Next to Godliness" and "Keep Malaikovil Clean" to reinforce the campaign's message.

Participation

Awareness Campaign on Cleanliness at Malaikovil

Awareness Talks: Brief talks were delivered by NSS student leaders and faculty coordinators.

They emphasized the adverse effects of pollution and the importance of personal accountability in keeping public spaces clean. The speeches inspired attendees to adopt better waste disposal practices.

Demonstration of Waste Segregation: A hands-on demonstration on waste segregation was conducted. Volunteers explained the difference between biodegradable and non-biodegradable waste, encouraging the use of separate bins. This activity was well-received, with several

community members pledging to implement segregation at home.

Outcome of the Campaign

The campaign was successful in achieving its objectives. The temple premises were significantly cleaner by the end of the drive, setting an example for visitors and the local community. More importantly, the campaign sparked a conversation about cleanliness and its impact on public health and the environment. Visitors and residents appreciated the initiative, with many expressing their commitment to maintaining the cleanliness of Malaikovil.

Feedback and Suggestions

The feedback received was overwhelmingly positive. Visitors suggested that similar awareness campaigns be conducted regularly. Many advocated for the installation of more waste bins and better signage to discourage

Awareness Campaign on Cleanliness at Malaikovil

littering. The NSS team proposed the formation of a local cleanliness committee to sustain the efforts initiated during the campaign.

Conclusion

The cleanliness awareness campaign at Malaikovil on 13th August 2018 demonstrated the power of collective effort in addressing environmental challenges. The active participation of NSS students and the community underscored the importance of collaboration in promoting cleanliness in public spaces. This initiative not only left a cleaner temple premises but also planted the seeds for long-term behavioral change among the people.

Avoid Plastic at Shanthi Nagar Hosur

St. JOSEPH'S COLLEGE OF ARTS AND SCIENCE FOR WOMEN
(Affiliated to Periyar University, Salem)
Mookandapalli, SIPCOT, Hosur – 635 126

Report for Avoid Plastic

Name of the Club : NSS
Date : 10.10.2018
Title of the Programme : _Avoid Plastic
Venue : Shanthi Nagar - Hosur
Beneficiaries : 200 Public
Participants : 20 students

Report on Avoid Plastic

Introduction Plastic has become an integral part of our daily lives due to its versatility and convenience. However, its overuse and improper disposal have led to severe environmental, health, and economic issues. This report aims to highlight the problems caused by plastic, the benefits of avoiding it, and steps that individuals, organizations, and governments can take to reduce plastic pollution.

Objectives of Avoiding Plastic

- Raise Awareness: Educate the public about the negative effects of plastic and the need to reduce its usage.
- Promote Sustainable Alternatives: Encourage the adoption of reusable and biodegradable products.
- Reduce Plastic Consumption: Implement measures to minimize the use of single-use plastics.
- Enhance Recycling: Improve systems for plastic waste management and recycling.
- Support Policy Changes: Advocate for stricter regulations on plastic production and disposal.

Avoid Plastic at Shanthi Nagar Hosur

Benefits of Avoiding Plastic

- Environmental Protection: Reducing plastic waste helps conserve ecosystems and biodiversity.
- Improved Health: Minimizing exposure to harmful plastic-related chemicals leads to better public health outcomes.
- Economic Savings: Lower costs for waste management and less environmental damage.
- Enhanced Sustainability: Encouraging the use of renewable and biodegradable materials fosters a sustainable future.

Conclusion The growing menace of plastic pollution calls for urgent action from individuals, communities, businesses, and governments. By adopting sustainable practices and promoting alternatives to plastic, we can protect our environment, improve public health, and ensure a healthier planet for future generations. Let us commit to the mission of "Avoid Plastic" and make a positive impact on our world.

Clean Awareness Campaign at Barandhur Village

**St. JOSEPH'S COLLEGE OF ARTS
AND SCIENCE FOR WOMEN, HOSUR**
(Affiliated to Periyar University, Salem)
Mookandapalli, Sipcot, Hosur-635126.

Report on Clean Awareness Campaign in Baranthur Village

Organized by: National Service Scheme (NSS)

Date: January 11, 2019

Location: Baranthur Village

Objective: The cleaning awareness campaign aimed to educate the residents of Baranthur village on the importance of maintaining cleanliness and hygiene in their surroundings. It also encouraged community participation in environmental protection and sustainable practices.

Activities Conducted

Awareness Rally

NSS students initiated the event with a rally around the village carrying banners and slogans such as "Cleanliness is next to godliness" and "A clean village is a healthy village."

Pamphlets highlighting the benefits of cleanliness and tips for waste segregation were distributed.

Door-to-Door Campaign

Groups of students visited households, interacted with the villagers, and educated them about waste management practices, such as separating biodegradable and non-biodegradable waste.

Demonstrations on composting kitchen waste were conducted.

Clean-Up Drive

NSS students, along with volunteers from the village, cleaned public areas such as the marketplace, school premises, and local water bodies.

Clean Awareness Campaign at Barandhur Village

Garbage was collected and segregated into recyclable and non-recyclable categories.

Impact

Increased Awareness:

Villagers showed enthusiasm and pledged to maintain cleanliness in their surroundings. Many agreed to implement waste segregation in their homes.

Immediate Improvements:

- ✓ Public spaces were visibly cleaner.
- ✓ Reduced litter around key areas such as the market and water bodies.
- ✓ Long-Term Initiatives:
- ✓ Formation of a village cleanliness committee to sustain the campaign's impact.
- ✓ Plans to set up compost pits and garbage disposal units in the village.

Participation

- NSS Volunteers: 50 students from nearby colleges.
- Local Authorities: Panchayat members supported the initiative by providing logistical aid and endorsing the program.

Challenges

- Initial hesitation among some villagers due to a lack of prior awareness.
- Limited resources for managing waste effectively on a larger scale.

Conclusion

The cleaning awareness campaign in Baranthur village was a significant step toward promoting cleanliness and hygiene.

Clean Awareness Campaign at Barandhur Village

It fostered a sense of responsibility among the residents and highlighted the importance of a clean environment. Continued efforts and follow-up programs will be essential to ensure sustained progress.

Organic Farming at Belagiri Village

St. JOSEPH'S COLLEGE OF ARTS AND SCIENCE FOR WOMEN, HOSUR

(Affiliated to Periyar University, Salem)

Mookandapalli, Sipcot, Hosur-635126.

Report on the Organic Farming in Belagiri

Date: 23.01.2019

Time: 11:00 a.m - 12:30 p.m

Venue: Belagiri

Attendees: 20 students from I B.C.A

Objective:

Introduction Belagiri, a serene village known for its lush green landscapes and agricultural heritage, has recently gained prominence for its adoption of organic farming practices. This report delves into the journey, practices, benefits, and challenges of organic farming in Belagiri, emphasizing its contribution to sustainable agriculture and rural development.

Benefits of Organic Farming

1. **Environmental Protection:** Organic farming reduces soil erosion, improves water quality, and promotes biodiversity.
2. **Healthier Produce:** The absence of synthetic chemicals results in safer, more nutritious food.
3. **Economic Opportunities:** Organic produce fetches premium prices in local and urban markets, boosting farmers' incomes.
4. **Community Development:** Training programs and cooperative farming initiatives have fostered a sense of unity among farmers.

Success Stories Several farmers in Belagiri have emerged as role models by successfully cultivating high-yield organic crops. For instance, a farmer's innovative use of vermicomposting has inspired neighboring villages to adopt similar techniques.

Date : 12.02.2019
Title of the Programme : Pubic place Cleaning
Venue : S. Mudhuganapalli.
Beneficiaries : 100 villagers
Participants : 12 students

Objectives:

To promote cleanliness and hygiene awareness among village residents through a community cleaning activity and rally.

Report:

On 28.09.2024, a cleaning activity was organized in village of S. Mudhuganapalli, featuring a pledge and awareness rally. A total of 12 students and 2 staff members participated in the initiative, working collaboratively to clean public spaces while engaging with villagers to emphasize the importance of cleanliness and sustainable practices. The event not only resulted in a cleaner environment but also fostered a sense of community responsibility among participants and residents alike. This activity aimed to instill long-lasting awareness about hygiene and environmental conservation in the village.
