Report for Soft Skill Activity on Creating a Well-Structured Study Schedule (2018-2019)

Invitation:

Date	:	07.07.2018
Resource Person	:	P.Jayanthi Assistant Professor Department of Computer science St.Joseph's college of Arts and science for Women, Hosur
Class	:	III B.SC PHYSICS
No of Beneficiaries	:	18

Report:

A well-structured study schedule is imperative for Computer Science students to excel academically. Ms.Jayanthi emphasizes the significance of crafting a systematic timetable tailored to individual learning needs and commitments. By allocating specific time slots for each subject, revision, and practice, students can effectively manage their workload and optimize study efficiency. Regular adherence to the schedule cultivates discipline and consistency in study habits, fostering better comprehension and retention of course material. This approach empowers students to effectively balance their academic pursuits with extracurricular activities, ensuring holistic development and success in their academic endeavors.
