Report for One Day Online International Seminar

Name of the Club : Intellectual Property Rights Cell
Date : 01.03.2025
Title of the Programme : IPR in the Digital Age Protecting Creative and Technological Innovations
Mode : Online (Google Meet)
Beneficiaries : 333
Participants : B.Com. B.Com CA Final Year students and staff members from various College
Collaboration : Genesis Innovation & Incubation Centre, IQAC and Christ College, Malur

A One Day Online International Seminar on the topic "IPR in the Digital Age: Protecting Creative and Technological Innovations" was successfully organized by Genesis Innovation & Incubation Centre in collaboration with the IQAC, IPR Cell, and Christ College of Science and Management, Malur on 1st March 2025. The event commenced at 9:30 a.m. and was conducted virtually through Google Meet,

enabling wide participation from students, scholars, and professionals across regions and institutions.

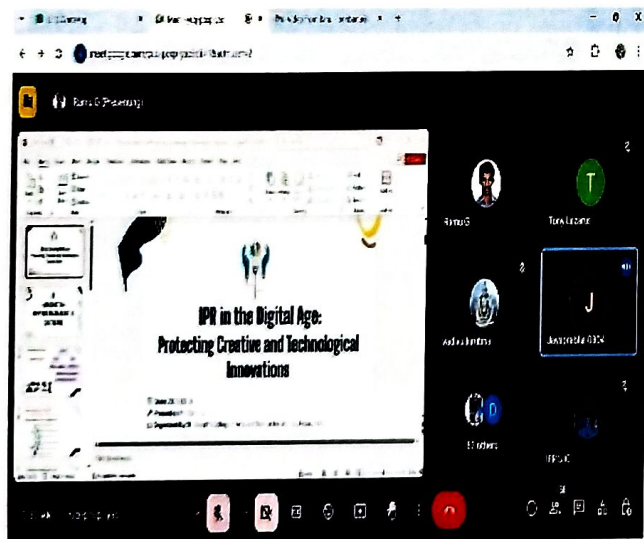

St. Joseph's College of Arts and Science hosted the seminar for Women, Mookandapalli, SIPCOT, Hosur an institution affiliated with Periyar University, Salem, and accredited with

an 'A' Grade by NAAC in its first cycle. The college is a recognized and ISO 9001:2015 certified institution known for its commitment to academic excellence and holistic education.

The objective of the seminar was to create awareness and enhance knowledge about Intellectual Property Rights (IPR), particularly in the context of the digital era where protecting original and innovative ideas has become increasingly important. As digital platforms have expanded the reach and reproduction of content, discussions around IPR have gained new urgency and significance. The seminar provided an opportunity for the academic community to understand the legal frameworks, ethical implications, and technological aspects of IPR protection.

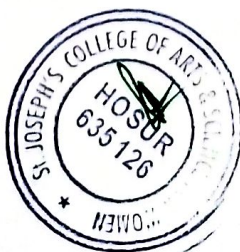

The event featured three eminent resource persons who contributed richly to the discussions. Mr. G. Ramu, a Senior Engineer at

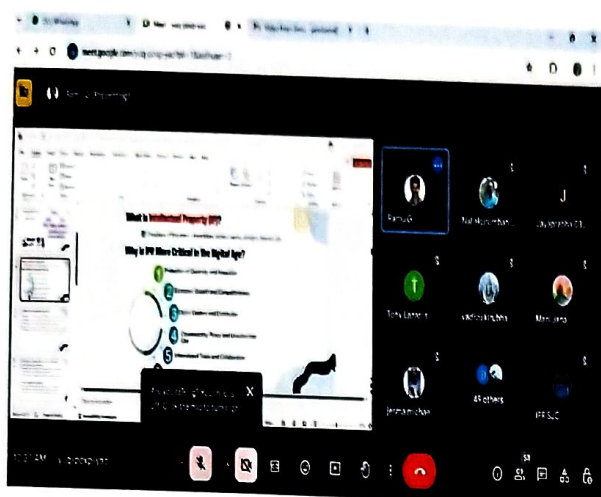

TAAL Technologies, Canada, addressed the global perspective on IPR and technological innovations. Dr. N. Parvin, Assistant Professor, Department of Computer Applications, B.S. Abdur Rahman Crescent Institute of Science & Technology, Chennai, offered insights into the academic implications and research-based approaches to IPR protection. Dr. K. Anbarasi, Associate Professor, Department of Chemistry, Nirmala College for Women, Coimbatore, focused on the practical applications of IPR in scientific research and the importance of

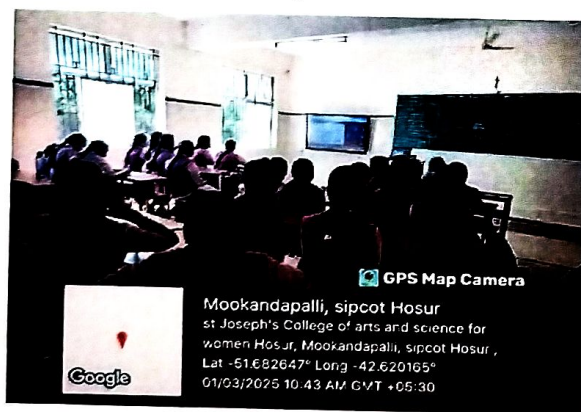

ethical research practices.

The organizing team, comprising Rev. Sr., Dr. Dona Grace Jeyaseely (Secretary), Dr. J. Caroline Rose (Principal), Mrs. G. Banupirya (Organizer), and Dr. A. Mohanapriya (Co-Organizer from Christ College of Science and Management, Malur), played a vital role in coordinating and executing the event with precision and professionalism.

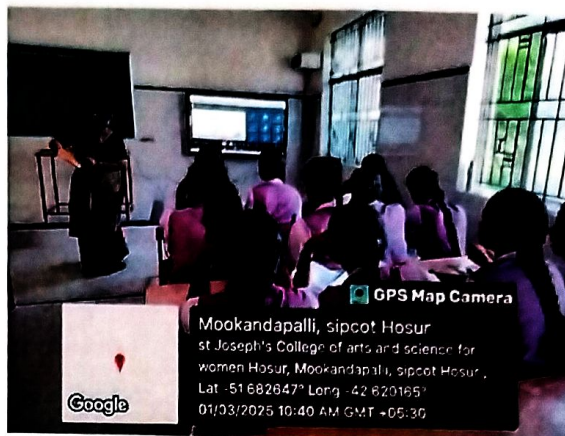

Participants appreciated the depth and relevance of the sessions, which not only provided a theoretical understanding of IPR but also practical tools and strategies for protecting innovations in academic, professional, and technological domains. The interactive Q&A session allowed attendees to clarify doubts and share views, making the seminar engaging and intellectually stimulating.

The seminar concluded with a vote of thanks to the resource persons, organizing committee, and all participants. Feedback received from attendees reflected high satisfaction with the

content, organization, and the overall

experience of the seminar. The event marked a significant step toward promoting IPR awareness and encouraging responsible innovation among the academic community.

Hosur

From

Dr. Dhina Suresh,
Head and Assistant Professor,
Department of Computer Science,
St. Joseph's College of Arts and Science for Women,
Hosur 635 126.

To

The Principal,
St. Joseph's College of Arts and Science for Women,
Hosur 635 126.

Respected Madam,

Sub: Seeking permission to conduct a workshop in association with Genesis Innovation and Incubation Centre – Reg.

We are pleased to inform you that the Department of Computer Science, in association with the Genesis Innovation and Incubation Centre, proposes to organize a workshop titled "IoT Awareness and Learning Workshop for Government School Children – Innovate and Collaborate: The Tech-Spark Initiative." The workshop is aimed at introducing government school students (from 9th to 12th standard) to the basic concepts of the Internet of Things (IoT) and fostering their interest in science and technology through hands-on sessions. The proposed workshop will be conducted in two government schools:

- On 06.02.2025 at Government Model Higher Secondary School, Medapalli, Shoalagiri.
- On 12.02.2025 at Government Higher Secondary School, Zuzuvadi, Hosur.

We kindly request your permission to organize this outreach program as part of our academic extension activity. We assure you that all arrangements will be made efficiently and following institutional guidelines.

Thank you for your kind consideration and continuous support.

Thanking You

(Dr. Dhina Suresh)

Report for Activity on 06.02.2025 & 07.02.2025

Name of the Department : Computer Science
Date : 06.02.2025 & 07.02.2025
Time : 10.00 a.m. – 03.30 p.m.
Title of the Programme : Innovate and Collaborate: The Tech-Spark Initiative
Venue : Government Model Higher Secondary School, Medapalli, Shoolagiri & Government Higher Secondary School, Zuzuvadi, Hosur
Participants : 166
Collaboration with : Genesis Innovation and Incubation Centre
Resource Person : Mrs. S. Bobby & Mrs. G. Aswini, Assistant Professor,
Department of Computer Science,
St. Joseph's College of arts and Science for Women, Hosur.

About the College

St. Joseph's College of Arts and Science for Women was established in the year 2006 with the motto "Knowledge Purifies and Charity Enhances." It is affiliated with Periyar University, Salem, and managed by the FSPM Sisters, Coimbatore. We empower young women with knowledge, skills, and a holistic approach and enable them to face the present society. The college offers various UG, PG, and research courses with a strength of more than 2000 students. The college fosters a strong academic environment, with an emphasis on experiential, participative, and problem-solving learning methods. In line with NEP 2020, it offers interdisciplinary learning options, value-added courses, skill development programs, and a mandatory outcome-based education model.

Secretary
Rev. Sr. Dr. Dona Grace Jeyaseely

Principal
Dr. J. Caroline Rose

About the Department

Department was established in the year 2006. We offer B.Sc [Computer Science], B.C.A, B.Sc[Data Science], M.Sc [Computer Science] and M.Phil [Computer Science] courses with 412 students. The department functions with highly qualified teaching staff to inculcate knowledge and make our students secure excellent results. The computing lab is well furnished with all the required software's and peripherals as per Periyar University Syllabus. In accordance with our motto "Disseminating Technology in Young Minds", we bestow the young women to attain technical excellence in the field of Computer Science and Technology. The department provides opportunities and infrastructures for workshops, technical seminars and hands-on training. We strive on imparting self-learning ability, leadership qualities, good career and placement opportunities for our students.

Genesis Innovation & Incubation Centre
in association with
Department of Computer Science
Organises a Workshop
titled

IOT AWARENESS AND LEARNING WORKSHOP FOR GOVERNMENT SCHOOL CHILDREN - "INNOVATE AND COLLABORATE: THE TECH-SPARK INITIATIVE"
06.02.2025 & 12.02.2025

Objectives of the Workshop

- ★ To introduce students from government schools, especially those in 9th grade and above, to the fundamental concepts of the Internet of Things (IoT).
- ★ To promote interest in science, technology, and engineering by providing hands-on experience with IoT technologies.
- ★ To demonstrate real-world applications of IoT through practical projects such as smart lighting, irrigation systems, and automated toll gates, making learning engaging and relatable.
- ★ To teach students the basic components and functions of IoT, such as sensors (e.g. temperature, motion, and blink sensors) and controllers like the Arduino kit.
- ★ To bridge the digital divide by ensuring that government school students are introduced to emerging technologies and are empowered to use these skills in their future education and careers.
- ★ To inspire students to explore career opportunities in IoT and other advanced technologies, encouraging them to pursue higher education in STEM fields.

PROGRAMME OUTLINE

- Introduction to IoT and Arduino Basics
- Introduction to IoT (Definition, applications, real-world examples)
- Overview of IoT components: sensors, actuators, controllers, connectivity, and data processing
- Overview of Arduino and Basic Electronics
- Basic components in the Arduino kit (LED, resistors, jumper wires, breadboard, sensors)

HANDS ON SESSION

- *Explanation of Arduino IDE and how to upload code*
- *Blinking LED (Getting Started with Arduino)*
- *Traffic Light Simulation*
- *Motion Detection and Alarm System*
- *Smart Dustbin and Garbage Monitoring System*
- *Smart Irrigation System*
- *Smart LED Notice Board*
- *Driver Drowsiness Detection System*
- *IoT Controlling LED lights using WIFI*
- *IoT Car Toll Gate*
- *Radar Detector*

BENEFICIARIES OF THE WORKSHOP

*School students - 9th to 12th grade from two government schools.
One full-day workshop at each school, focusing on practical learning of IoT.*

SCHEDULE

- **Day 1: 06/02/25 - Government Model Hr. Sec. School, Medapalli, Shoolagiri.**
- **Day 2: 13/02/25 - Government Higher Secondary School, Zuzuvadi, Hosur.**

RESOURCE PERSON

1. Mrs. S. Bobby, Assistant Professor,
2. Mrs. Aswini G, Assistant Professor, Department of Computer Science, St. Joseph's College of Arts and Science for Women, Hosur.

STUDENT VOLUNTEERS

1. Ms. J. Akshaya, III B.Sc. CS
2. Ms. R. Ashika, III B.Sc. CS
3. Ms. G. Revathi, III B.Sc. CS
4. Ms. R. Priya, III B.Sc. CS
5. Ms. Kesavardhini, II B.C.A
6. Ms. Jerisfa, II B.C.A
7. Ms. Rekha, II B.C.A
8. Ms. Kaviya S, II B.C.A

The Department of Computer Science, in association with the Genesis Innovation and Incubation Centre at St. Joseph's College of Arts and Science for Women, Hosur, organized a transformative outreach initiative titled **"IoT Awareness and Learning Workshop for Government School Children – Innovate and Collaborate: The Tech-Spark Initiative."** This two-day workshop was specially designed to introduce high school students from government schools to the dynamic and

rapidly evolving world of the Internet of Things (IoT).

The primary objective of this initiative was to bridge the digital divide by creating awareness, igniting curiosity, and nurturing future-ready skills in young learners. This initiative aligned closely with the department's vision to empower youth through technology-driven education and inspire them to pursue careers in science, technology, engineering, and mathematics (STEM).

The first session of the workshop was successfully conducted on **6th February 2025** at *Government Model Higher Secondary School, Medapalli, Shoolagiri*. The session was facilitated by **Mrs. G. Aswini**, Assistant Professor in the Department of Computer Science. A total of **79 students** from grades 11 & 12 actively participated in this session. The second session took place on **12th February 2025** at *Government Higher Secondary School, Zuzuvadi, Hosur*, led by **Mrs. S. Bobby**,

Assistant Professor, and benefitted **87 students** from 9th grade.

In both schools, the students showed exceptional enthusiasm and eagerness to learn. They displayed an inquisitive mindset, engaged in discussions, asked thoughtful questions, and participated enthusiastically in all the hands-on activities, indicating a genuine interest in learning about technology and its real-world applications.

The sessions began with an interactive introduction to the concepts of IoT, including its definition, significance,

and examples of real-world use cases. This was followed by an overview of core IoT components such as sensors, actuators, connectivity modules, and data processing units.

Students were introduced to **Arduino kits**, along with basic electronic components like LEDs, resistors, jumper wires, and breadboards. Hands-on learning formed the heart of the workshop, as students engaged in stimulating activities like blinking LED setups, traffic light simulation, motion detection and alarm systems, smart irrigation systems, smart dustbin monitoring, driver drowsiness detection systems, and radar-based toll gate control.

A unique and impactful feature of this workshop was the **group-based teaching approach**. Student volunteers from the Department of Computer Science – including students from III B.Sc. CS and II B.C.A. –

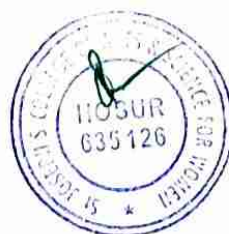

played a vital role in mentoring the school students.

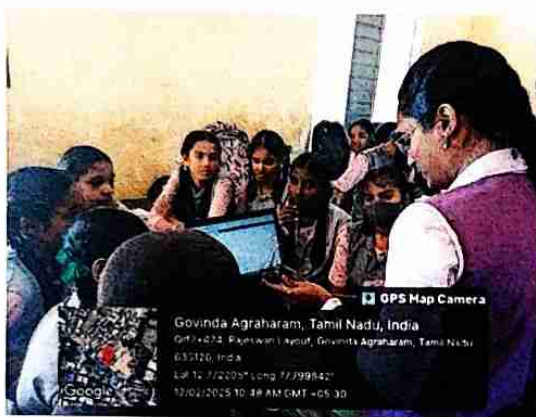

They were assigned to small groups and offered personalized guidance and demonstrations. This peer-learning environment fostered greater understanding and comfort, enabling students to experiment with the kits confidently.

The volunteers patiently explained coding steps, helped troubleshoot issues, and encouraged collaborative learning among the school participants. Their supportive presence not only ensured the smooth execution of the workshop but also served as role models, inspiring school students to imagine themselves in similar academic and technical roles in the future.

The workshop environment was charged with curiosity and enthusiasm throughout. The hands-on sessions allowed students to see immediate results of their

work, which boosted their confidence and made learning tangible and meaningful. The teachers and staff of both schools expressed their appreciation for the initiative, noting the positive impact it had on their students' outlook toward learning and technology.

Overall, the **IoT Awareness and Learning Workshop** was a **resounding success**, positively impacting **166 students** across two schools. It effectively served its purpose of introducing young minds to the possibilities of IoT and digital technology.

The initiative not only strengthened the students' technical understanding but also encouraged them to consider higher education opportunities in STEM fields. The collaborative efforts of faculty, student volunteers, and school staff contributed to a vibrant and inspiring learning experience, setting a solid foundation for future outreach programs focused on digital empowerment, innovation, and inclusive education.

Respected Madam,

Sub: IOT Workshop - Reg.

I am overwhelmed to the team from the dept of Computer Science for organizing a Workshop (hands-on) on "IOT awareness and Learning Workshop for Govt. School Children" - "Innovate and Collaborate the Tech-Spark Initiative". This team has effectively demonstrated the popularization in Science and Technology in real time world. The Team consisted of 14 Students & 3 faculty members.

Beneficiaries: 79 Students.

Comments : Very useful project, Students are participate in motivating way & gained knowledge regarding the topic. Thank u. faculty.

Thank You.

Yours Sincerely,

06/02/2025

Respected Madam,

Sub: IoT Workshop - Reg.

I am overwhelmed with the team from the Department of Computer Science for organizing a workshop (hands-on) on "IoT Awareness and Learning Workshop for Govt. School Children – Innovate and Collaborate: The Tech-Spark Initiative". This team has effectively demonstrated the popularization of Science and Technology in the real-time world. The team consisted of 18 students and 2 faculty members.

Beneficiaries: 87

Comments:

The innovative devices designed by the team can induce the science and technological knowledge of our young ones. The acquired knowledge will increase the interests the students in this field. Thanks to the St. Joseph's institution to give the opportunity.
Thank you.

Yours Sincerely,

Don't forget

Respected Madam,

Sub: Seeking permission to conduct a Workshop in association with St. Joseph's Innovation and Incubation Centre as a part of Extension Activity – Reg.

I place a request to grant permission for the Department of English to conduct a Workshop on **Voice and Vision: Podcasting & Digital Storytelling** in association with St. Joseph's Innovation and Incubation Centre at P.U.P School on 21.02.2025. We value your guidance and support in such initiatives, and eagerly await your kind permission to proceed.

Thanking You

Respected Sir

This is Dr. L. Jenniffer, Head, Department of English, St. Joseph's College of Arts and Science for Women, Hosur. I request you to kindly allow Ms. P. Prathimashri, Asst. Professor, Department of English to conduct a **Workshop on Digital Storytelling in Govt Primary School, Basthi on 21.02.2025**. We would adhere to the regulations of the school and we assure that this workshop would bring the innovative spirits of the young children. Please permit us to do the same.

Thanking you,

Yours truly

Report for Extension Activity/Workshop on 21.02.2025

Name of the Department : English
Date : 21.02.2025
Title of the Programme : Workshop/Extension Activity to School
Topic : Voice and Vision: Podcasting & Digital Storytelling
Venue : P.U.P School, Basthi
Beneficiaries : 40
In Collaboration with : Genesis Innovation and Incubation Centre

Genesis Innovation and Incubation Centre in association with the Department of English from St. Joseph's College of Arts and Science for Women organized a workshop at P.U.P School on 21.02.2025.

The session was conducted for students of Class IV A on the topic "Voice and Vision: Podcasting & Digital

Storytelling" to encourage their innovative skills.

The primary goal of this workshop was to introduce students to the creative and technical aspects of podcasting and digital storytelling. It aimed at amplifying young voices, enhancing storytelling skills, and fostering innovation through modern digital platforms. The innovative session focused on storytelling techniques and their digital basics of podcasting, including voice modulation, scriptwriting, and recording. Emphasis was placed on

on how digital storytelling can be used as a tool for education and self-expression. Interactive activities encouraged students to craft their own short digital stories and experiment with podcasting tools.

The workshop successfully provided students with a hands-on experience in podcasting and digital storytelling. It inspired creativity and innovation among young learners, equipping them with essential skills for effective communication in the digital age.

The students actively participated by sharing their experiences, asking insightful questions, and

discussing their concerns about digital story telling.

The teachers and staff at P.U.P School appreciated the initiative taken by St. Joseph's College of Arts and Science for Women, acknowledging the importance of educating young minds about Podcast.

The workshop was successful in learning about digital storytelling and podcast. It helped students develop a better understanding of creative aspects and about usage of podcast. The session concluded with positive feedback from students and staff, marking it as a fruitful and impactful event.

The innovative thoughts raised by the students are

1. Students imagined a podcast where their favorite toys come to life and tell bedtime stories, sharing adventures and life lessons.
2. A storytelling podcast where listeners press different "magic buttons" (virtual) to change the plot, allowing kids to control how the story unfolds.
3. A podcast where animals talk about their daily lives, with fun facts about

nature, inspired by what students see in their surroundings.

4. Students create and voice their own superhero characters, solving imaginary problems in their community through storytelling.

5. A podcast where students share their weird and funny dreams, turning them into exciting fantasy tales with sound effects.

**Report for Virtual Talk on Cyber Hygiene- A brainstorming workshop
to propose innovative cybersecurity solutions**

Name of the Club : Cyber Club In Association with Innovation and Incubation Centre
Date : 27-02-2025
Time : 10.00 a.m.
Title of the Programme : Virtual Talk on Cyber Hygiene - A brainstorming workshop
to propose innovative cybersecurity solutions
Venue : M18,M20,M32,M34
Beneficiaries : 308
Participants : -
Collaboration with : - Innovation and Incubation Centre
Resource Person : - Mr. Rushikesh Handore B.E.,
Project Associate
C-DAC, Bangalore

The Cyber Club In Association with Innovation and Incubation Centre of St. Joseph's College of Arts and Science for Women organized an Workshop on " Virtual Talk on Cyber Hygiene- A brainstorming workshop to propose innovative cyber security solutions on 27thFebruary at 10:00 a.m.. The event aimed to educate students and faculty members on essential cybersecurity practices and provide a

platform for brainstorming innovative solutions to enhance online security. The session was graced by the presence of renowned cybersecurity expert Mr. Rushikesh Handore B.E., Project Associate at CDAC Bangalore.

The event aimed to raise awareness about cyber hygiene and the importance of cybersecurity in daily online interactions. It highlighted risks like identity theft, social engineering, and deepfake technology. Students learned best practices for digital

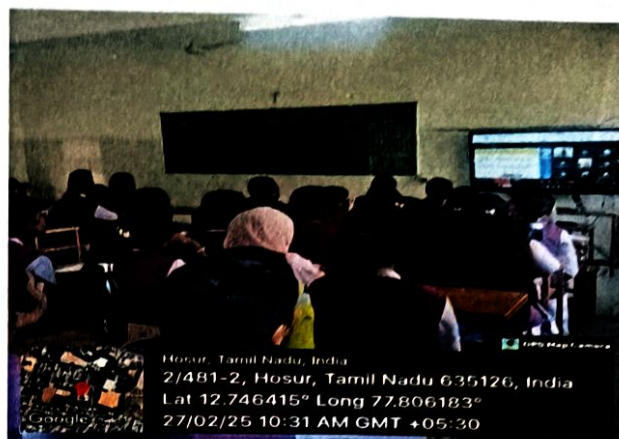

security, including password management and phishing prevention. Mobile security and email safety were key focus areas. The department of English, Mathematics and Computer Science department students all first year are Participated

The session encouraged innovative solutions to combat cyber threats. Ethical and responsible online behavior was emphasized. Ultimately, the event promoted a secure and informed digital community.

During the session, Mr. Rushikesh Handore discussed six critical aspects of cybersecurity, providing real-world examples and effective preventive measures to enhance cyber hygiene. The session focused on identity theft, password management, mobile security, social engineering, deepfakes, and email security, helping attendees understand modern cyber threats and how to mitigate them.

The session covered identity theft, where cybercriminals steal personal data for fraud. Phishing scams trick users into revealing sensitive information. Data breaches, card skimming, and social media exploitation were highlighted as major risks. Hackers steal information through fake emails, ATM devices, and public profiles. Mr. Handore stressed avoiding online data sharing and enabling two-factor authentication (2FA). Regularly checking bank statements and using credit monitoring services were recommended. These measures help protect against identity theft effectively.

Weak or reused passwords make accounts vulnerable to cyberattacks. Best practices include using strong, unique passwords with a mix of characters and storing them in a password manager. Regular updates and enabling multi-factor authentication (MFA) enhance security. Mobile security is crucial as smartphones are used for banking, shopping, and communication. Threats include malware apps, public Wi-Fi risks, and SIM swapping. Users should install apps from trusted sources, use VPNs, and keep software updated. Enabling remote lock and data wipe features helps protect lost or stolen devices. Social engineering manipulates individuals into revealing personal information through phishing, pretexting, baiting, and tailgating. To stay safe, users should verify requests, be cautious of urgent messages, and use email filters. Avoid clicking on suspicious links to prevent cyber threats.

The session covered deepfakes, where AI-generated videos or audio spread misinformation, fraud, and impersonation. Examples include fake political videos, CEO voice scams, and fraudulent celebrity endorsements. Users can detect deepfakes by spotting unnatural expressions, lip-sync issues, and

using reverse image searches. Email security was also discussed, highlighting threats like phishing, ransomware, and spoofing. Best practices include avoiding unknown emails, verifying links, using spam filters, and enabling encryption.

In association with innovation and incubation centre. A brainstorming workshop to propose innovative cybersecurity solutions. The students are discussed with following points.

AI-Powered Phishing Detection System, Develop a machine learning-based browser extension that detects phishing websites in real time and integrates AI to analyze email patterns for phishing detection.

Blockchain-Based Digital Identity Verification, develop a blockchain-based decentralized digital identity system with zero-knowledge proofs for secure, passwordless authentication and identity theft prevention.

Passwordless Authentication with Biometrics & Blockchain, authentication system using biometric encryption and blockchain to prevent credential leaks. **Cyber Hygiene Awareness Gamification,** design a mobile app or VR-based game to educate users on cybersecurity threats and best practices.

Secure Cloud Storage Using Homomorphic Encryption Enable secure computations on encrypted cloud data without decryption, ensuring privacy in cloud-based AI applications. **Build an AI-powered threat intelligence platform** that monitors the dark web for leaked credentials and security breaches.

Finally, the Virtual Talk on "Cyber Hygiene" was a resounding success, fulfilling its goal of spreading awareness about cybersecurity risks and best practices. The session covered essential topics such as Identity Theft, Password Management, Mobile Security, Social Engineering, Deepfakes, and Email Security, equipping students with practical knowledge to protect themselves online. As cyber threats continue to evolve, institutions must take proactive steps to educate students about digital security. The Cyber Club looks forward to organizing more such sessions in the future, fostering a culture of cybersecurity awareness and responsible digital citizenship.

To be held on 04.01.2025
Venue: Pyarakanahally

Mrs. N. Vadivu Organizer
Dr. J. Caroline Rose Principal
Rev. Sr. Dr. Dona Grace Jeyaseely Secretary

The Women's Cell and Rural Women Welfare Club, in association with the Genesis Innovation & Incubation Centre of St. Joseph's College of Arts and Science for Women, Hosur, organized a community extension activity titled "Wings of Wellness – Training on Sanitary Napkin Making" on January 4, 2025, at Pyarakanahally village.

This initiative was designed to empower rural women by equipping them with practical knowledge and skills in making hygienic, low-cost sanitary napkins. Unlike previous initiatives that focused on awareness and distribution, this program emphasized sustainable menstrual hygiene management by enabling women to produce their own sanitary products.

The event commenced with a short awareness session highlighting the importance of menstrual hygiene and the adverse effects of using unsafe alternatives. Following this, a hands-on training session was conducted where participants learned to create sanitary napkins using simple, eco-friendly, and locally available materials. The process included step-by-step demonstrations of assembling, sterilizing, and packaging the napkins. Special focus was given to maintaining cleanliness and safety during production and disposal.

The program also introduced the women to basic tools and encouraged the use of low-investment methods for starting home-based or group-led production. The trainers explained how such skills could be transformed into a source of income by forming self-help groups (SHGs) or small-

scale enterprises. The session sparked meaningful discussions about menstrual health, broke common social taboos, and encouraged women to speak openly about their needs and concerns.

Overall, the training instilled confidence, enhanced awareness, and promoted economic self-reliance among the participants. The college, through this initiative, reaffirmed its commitment to community welfare, skill development, and women's empowerment.

The program left a lasting impact by promoting health, dignity, and sustainable livelihood practices in rural communities.
