Institution Innovation Council

OBJECTIVE:

To create awareness among the school students about innovation, inspiring students to be successful entrepreneurs and inculcate in them the ability to start any nature of small scale business.

REPORT:

The Institution's Innovation council of St. Joseph's college of Arts and Science for women, Hosur in association with the Department of Computer Science and the Lions club of Hosur, Sipcot, organized an "Innovative Entrepreneurship Hands-On Training Program on Chocolate Making and Soap Making" on 1st February 2023 at Government High School, Moranapalli.

The hands-on training session started with a prayer song and the participants of the school were welcomed by Mrs. V. Niranjana, Assistant professor, Department of Computer Science. An introduction about the training session was given. The motive of the event was to create an awareness among the school students regarding entrepreneurship. The training session was organized by the department of Computer Science in association with the IIC of our college and the Lions club Sipcot, Hosur. The members of the Lions club also participated in the inaugural process. The session was then handed over to Arpitha and Deepalakshmi.

Deepalakshmi spoke about the various opportunities available and valuable ideas for initiating a soap making start-up. She explained the step-by-step process of making soaps with different flavours. The school students were divided into 15 teams with 10 members in each team. They were given materials for soap making and then a hands-on training session was conducted for the school students. Each team was handled by 2 student volunteers from the department of computer science. They

assisted the school students in preparing soap. Each team prepared a different flavour of soap. Then the session was handled by Arpitha. She along with the volunteers taught the school students to make chocolate.

The school students and 5 teachers participated in the soap making and chocolate making process with great enthusiasm. The school students asked many doubts which were cleared by the volunteers. Ms. G.Amalredge, Assistant professor, Department of Computer Science delivered the vote of thanks.

The training session concluded with the National Anthem.

Institution Innovation Council

OBJECTIVE:

To spread awareness on the importance of Indian innovation and the value of Indian education in our society.

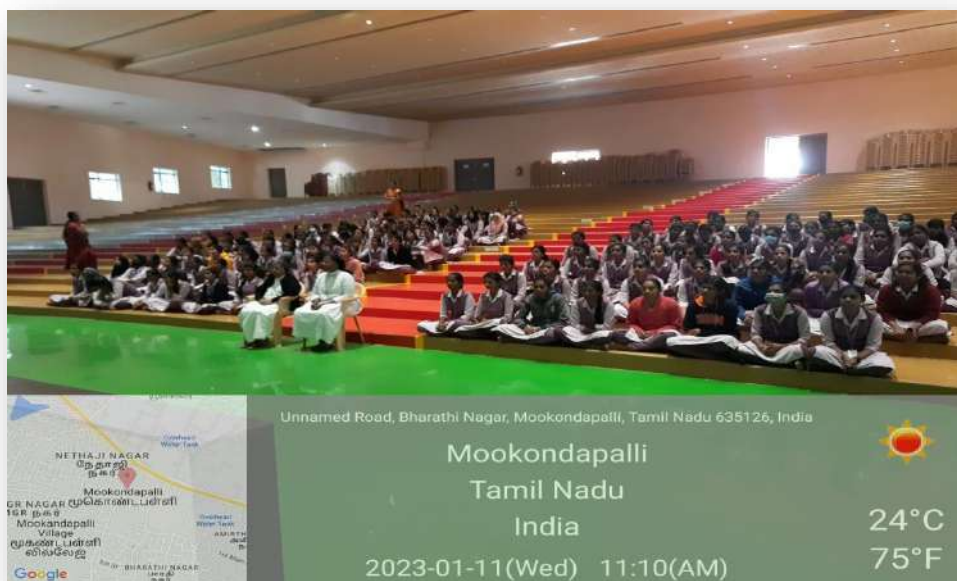

REPORT:

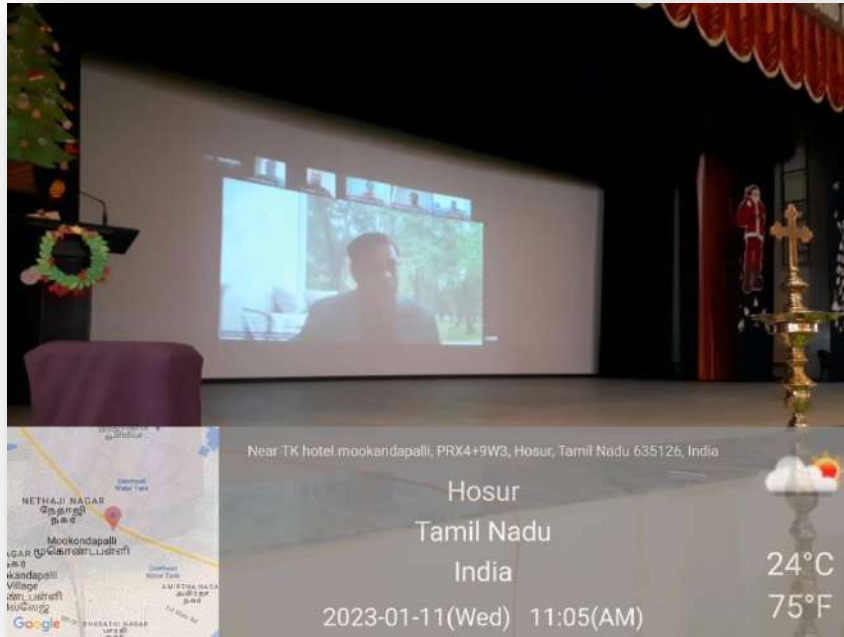

Orientation session of the Institution Innovation Council (IIC 5.0) for the academic year 2022 to 2023 was organized in virtual mode on 11th January 2023. The President, Convener, IIC council members and student Ambassadors attended the online sessions.

The Session was started with the welcome note by **Mr. Dipan Kumar Sahu**, Assistant Innovation Director, Ministry of Education's Innovation Cell and AICTE, Government of India. He was elaborated about achievements and new features of IIC 5.0.

National education policy (NEP) 2020 promotes reduction in curriculum making space for critical thinking, holistic, enquiry-based, discovery-based, discussion –based and analysis-based learning. He also said about the system, structure, strategy, leadership, culture and performance of Innovation and entrepreneurship ecosystems in higher educational institutions followed by the action plan for I & E in school and HEIs as well as the national innovation and start up policy 2019 for students and faculty. He emphasized training of Innovation Ambassadors (**IA**) and advised them to regularly upgrade their skills in training programs. He elucidated about YUKTI Innovation Repository for both faculty and students Innovations. He clarified about the levels of IIC activities and the scheme of awarding points according to the performance of the college. The session was ended with vote of thanks.

ACADEMIC YEAR	2022-2023
SEMESTER	II
QUARTER	III
ACTIVITY TYPE	SELF DRIVEN ACTIVITY
ACTIVITY NAME	Orientation session on IIC 5.0 and its features"
DATE	09.02.2023
TIME	9am
VENUE	Seminar Hall
MODE OF CONDUCT	Offline
COORDINATOR	Mrs. Margret Kanimozhi
RESOURCE PERSON	Mrs.Olive Shanthi
STUDENT PARTICIPANTS	100 students
FACULTY PARTICIPANTS	4 faculty members
ONLINE RESOURCE	

OBJECTIVE:

It means creating work for yourself as an entrepreneur and for others. This means you must be a self-starter. The goal of the entrepreneur is to earn money.

About the Resource Person:

The Department of Biotechnology organized a workshop on “Soft toy making” on 9th February 2023. It was initiated by Mrs. Olive shanthi, She is presently the President of Rotary club, Hosur and the Treasurer of JCI Hosur Lake City. She has 8 years of media exposure in SUN TV, KALAIANGAR TV, DHOORDHASHAN PODHIHAI CHANNEL and 7 years experience in AVAL VIGHADAN MAGAZINE in which mam has written 69 articles consistently.

She has scripted written articles based on craft in THINAKARAN, TAMILMURASU & DHINAMALAR newspapers. Her book named KAI NIRAIYA KAASU THARUM BOMMAI KAI VANNANGAL on clay modeling was published by KANNADHASAN PADHIPAGAM. The same book was selected as one of the best books in the series and was honored by KUMUDHAM MAGAZINE. She was awarded for the best soft toys designer by late. Violinist Dr. KUNNAKUDI VAIDHIYANADHAN and has Exhibited various crafts products at HOTEL CHOLA SHERATON, Chennai, where she was honored by Actor and film star Mr. VIVEK. This event was held at Seminar hall of St. Joseph’s college of arts and science for women, Hosur. Workshop was presided by the Principal Rev. Sr. Dr. Helen and IIC Convener, Head Department of biotechnology Mrs. Margret Kanimozhi A.

Report:

Entrepreneurship education cultivates innovative talents, an important driving force for future development. From knowledge learning to skills improvement, entrepreneurship education includes general ability development and improvement of professional ability. Entrepreneurial competence, mainly refers to the ability to identify opportunities and develop the necessary resources.

Mrs. Olive Santhi inspired students to become entrepreneurs even while in the process of studying. Mam proffered with the materials and students effectively started practicing the toy in the presence of our resource person. This made students to develop their skills in the entrepreneurship. Her creative teaching was a boost to the students and all the 100 participants made their own toy. This session was beneficial for the students to think creatively in the start ups.

Objective:

To create awareness towards the importance of sustained efforts of inculcating, nurturing, and unleashing the scientific temper and innovative mindset for sustainable and inclusive growth.

ABOUT THE RESOURCE PERSON:

Dr. Farhan Zameer is presently serving as an Associate Professor and Chief Scientific Officer in the PG Department of Ayurveda Pharmacology at Alva's Ayurveda Medical College, Vidyagiri, Moodubidire. He has completed his Post Doctoral Studies (Post-Doc) from the School of Medicine, Department of Pathology, Microbiology, and Immunology (PMI), Cancer Center, University of South Carolina, USA. Sir has been conferred with Sir C.V. Raman Fellowship from the University Grants Commission (UGC), New Delhi, Govt. of India to pursue research in USA with a specialization in Biochemistry (Bacterial thiolomics), Epigenetics, anti-inflammation.

A good student always makes an excellent teacher. Dr. Farhan is an inspiration today because he has excelled in his studies as a student. He has completed his Masters' Degree from Mangalore University with 1st Rank, a Gold Medal in Biochemistry, and Bachelors' Degree from Kuvempu University (3rd Rank – Bronze Medal).

Further, he has qualified Indian Council of Medical Research (ICMR) & UGC-KSET exams. He has also completed Master Facilitator Certification in Leadership & Human Resource Development (MFLHRD) from College for Leadership and Human Resource Development (CLHRD), Mangalore.

Currently, his lab PathoGutOmics has been well-funded from public and private funding agencies and his area of research interest is in the field of Biochemistry of thiol gene expression, protein/enzyme studies, regulation of metabolic pathways with special reference to cellular oxidative stress, biofilms, and cellular signaling pathways, including bioinformatics approaches and epigenetics (miRNA & histone) mediated mechanisms in inflammatory fly and mouse models. He is also part of various collaborative research

Institution Innovation Council

OBJECTIVE:

To create awareness about innovation, inspiring students to be successful entrepreneurs and inculcate in them the ability to start any nature of small scale business.

PROFILE OF THE RESOURCE PERSON:

Mrs.V.Suganya Devi, is a successful Entrepreneur and Start up founder who has taken up and gloriously won by concocting her own preparation of herbal soaps and detergents for almost 7 years. She is also a business partner in small scale industry (AKS Industry) which is involved in manufacturing of Ashok Leyland spare parts.

She has a Masters in Computer science from PVP college of Arts and Science, Vathalagundu and is one of the enthusiastic person who motivates young students.

REPORT:

The Institution's Innovation council of St. Joseph's college of Arts and Science for women, Hosur in association with the Department of Biotechnology formulated an inspirational workshop on "My story –Motivational session by Successful entrepreneur."

On 28th October 2022 at St. Francesco Auditorium with 200 students and 4 faculty members attended the session.

The hands on training workshop started with a prayer song and the participants were welcomed by Mrs. Rabiya Aleen, Assistant professor in Biotechnology. Mrs. Ramya, Assistant professor in Biotechnology introduced the session speaker. The focus of the event was to understand the opportunities and challenges of starting a business. The Presider, Mrs. Suganya Devi illuminated the students with her motivational speech.

She spoke about the diverse opportunities available and valuable ideas for initiating a soap and detergent start-up. The Prolocutor also explained the numerous challenges that faced in her journey of entrepreneurship and made students to think out of the box.

The resource person then conducted a hands-on training session of making soaps and detergents. The participants too were given raw materials to concoct as per her instructions.

This was followed by a Q and A session where the students asked many questions about her business and cleared their doubts. Altogether it was an interactive session with valuable takeaways for all. Ms. Jancy Magdalene, Assistant professor delivered the vote of thanks.

The training session concluded with the National Anthem.

St. JOSEPH'S COLLEGE OF ARTS AND SCIENCE FOR WOMEN
(Affiliated to Periyar University, Salem)
Mookandapalli, Sipcot, Hosur – 635126

Report for “Earth Day Celebration” – 25th April, 2023

Date: 25.4.2023

From
Department of Mathematics
St. Joseph's College of Arts & Science for Women,
Hosur.

To
The Principal,
St. Joseph's College of Arts & Science for Women,
Hosur.

Respected Sister,

Subject: Letter Requesting for the earth day celebration

We would like to ask for your permission to allow us to conduct a rally and to exhibit the film “Kadaisi Vivasayi” about farmer to the students of Government Corporation Middle School, Arasanatty on behalf of “Earth Day Celebration”. Also, we would like to ask for your assistance or recommendations for the best duration and venue for this upcoming plan. Hoping for your feedback with regards to this request.

Thankyou,

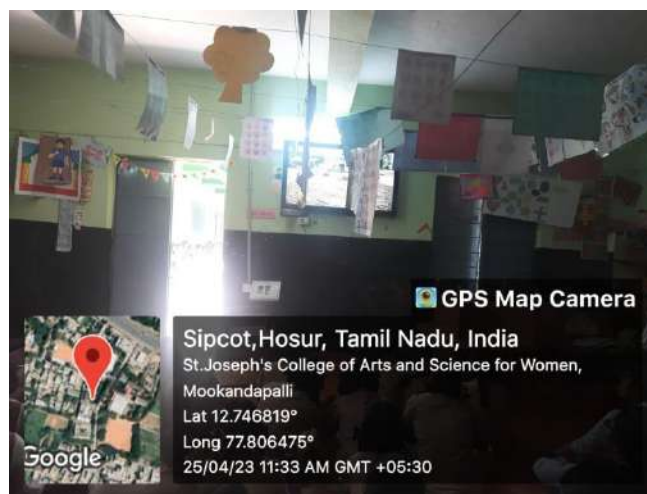

Yours truly,

[JALEESHA.B.K.]

The Earth day was celebrated on 25th April, 2023 by our department, the Department of Mathematics. The event has celebrated to give awareness to the students and the people about the protection of the earth and its resources.

The celebration was started by the Rally, which was inaugurated by our Principal Rev. Sr. Dr. M. Helen. The rally was held from our college to P.U.M. School, Arasanatty by shouting the words about “Save the Earth”.

Four of our students have given the speeches on the topics “The hazardous effects of mobile phones”, by Yugavarshini, II B. Sc. Maths; “Cleanliness of the Environment” by M. Bharaneeshwari, II B. Sc. Maths; “Save Agriculture” by Kanagathara, II B. Sc., Maths and “Why we celebrate Earth Day?” by M. Anbarasi, I M.Sc. Maths to create awareness on saving our planet.

The feedback of the students was collected. It gave the better understandings of students that what they have gained by this event.

And then, the film “Kadaisi Vivasayi” was shown to the students of 7th and 8th standards.

St. JOSEPH'S COLLEGE OF ARTS AND SCIENCE FOR WOMEN
HOSUR

Institution Innovation Council

OBJECTIVE:

To create awareness about National Energy Conservation Day with a special theme and to promote energy conservation, many programs like discussions, conferences, debates, workshops, and competitions are organized throughout the whole country and also to Encourage people to use energy efficiently rather than excessive energy.

PROFILE OF THE RESOURCE PERSON:

Dr.K.Janaki, Currently working as a Assistant Professor in the Department of Physics atMGR College of Arts & Science, Hosur. She has completed her Doctor of Philosophy (**Ph.D.**) in Physics on the title: **The status of global warming using near surface weather parameters,2017** and she has also completed her Master of Philosophy (**M. Phil.**) in Physics Alagappa University, Karaikudi during 1996-1997.

She has also attended various UGC sponsored coferences and national and international level conference, seminars and symposium. She has pulished various journals andpapers in various publications.

REPORT:

The Institution's Innovation council of St. Joseph's college of Arts and Science for women, Hosur in association with the Department of Nutrition and Dietetics formulated an awareness program on energy conservation as a part of World energy conservation day.

On 14th December 2022 at St. Francesco Auditorium with 200 students and 4 faculty members attended the session.The Awareness program started with a prayer song and the participants were welcomed by Nandhini.M of I B.Sc Nutrition and Dietetics. Anizul Nisha of I B.Sc Nutrition and Dietetics introduced the chief guest.

The Main motto of the event was to make students understand about what is energy, its types, sources and the ways to conserve energy. She has also embossed on the steps and efforts taken by the government of India to conserve energy. She motivated the students by explaining about their responsibilities in the society with various special quotes. Nandhini.M of I B.Sc Nutrition and Dietetics delivered the vote of thanks.

The awareness program got concluded with the National Anthem

HOSUR

OBJECTIVE:

To reinforce classroom learning and expose the students to different lifestyles and eras. This multisensory learning experience will create enthusiasm for innovation among the students.

REPORT:

The Institution's Innovation council of St. Joseph's college of Arts and Science for women, Hosur in association with the Department of Biotechnology organised "Exposure and field visit for problem identification" on 28th November 2022. About 60 students along with 4 faculty members visited the Chandram kudi lake, Hosur.

In India, 80% of water is severely polluted due to the damp raw sewage, garbage, industrial effluents and also because of agricultural activities. Our field visit was aimed to enlighten the students about water quality deterioration due to water hyacinth infestation. The faculty took turns and explained to the students about the hyacinth plant characterisation and its contribution towards water quality deterioration. Our students interacted with the residents close by and came to know about how the eutrophication affects their day to day life.

After the field visit the students formed groups and discussed about solutions for the problem.

Each group presented possible areas for innovation.

1. To manufacture the useful products such as

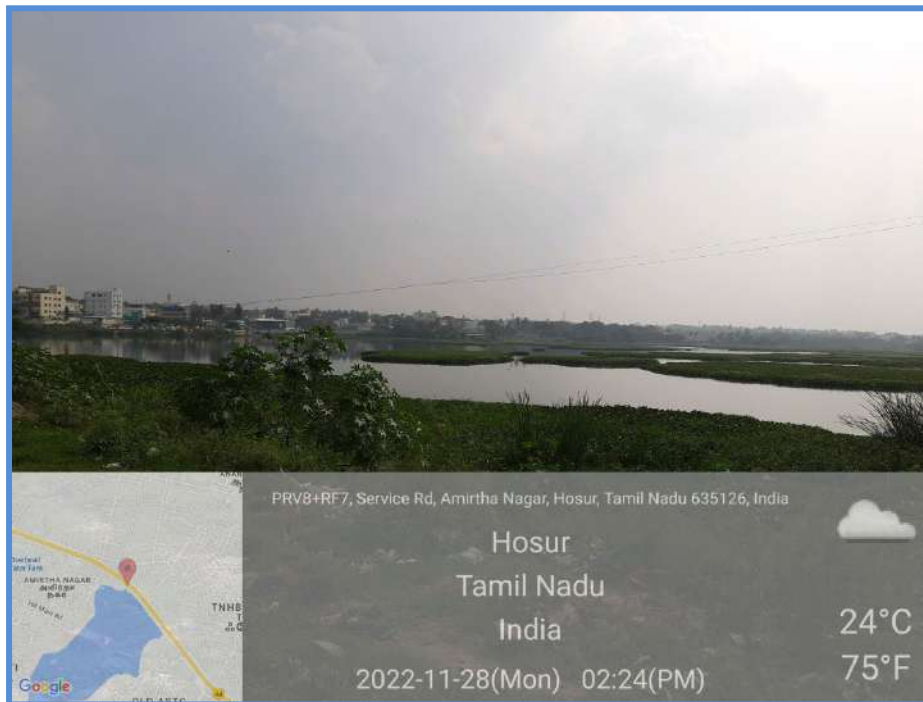

- Baskets
- Files
- Sweet boxes
- Carpets
- Hand bags
- purses

- Place mats
- Tray
- Containers

2. To use it as animal fodder.

3. To compost and use it as organic fertilizer.

Institution Innovation Council

OBJECTIVE:

The literary Quiz retains facts and information as a part of acquisition of literary knowledge. The main aim is to encourage imaginative and critical habits of mind, rather than to provide students with factual information.

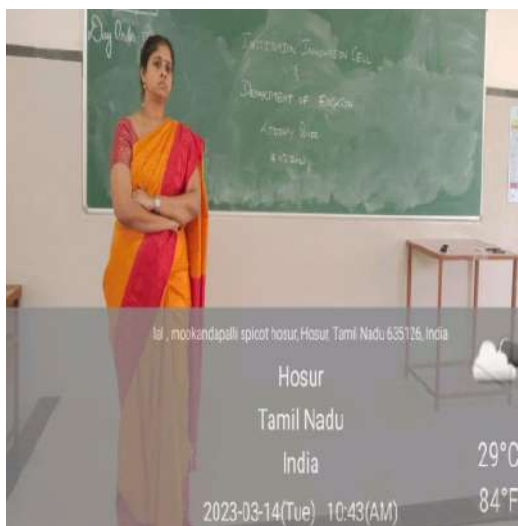

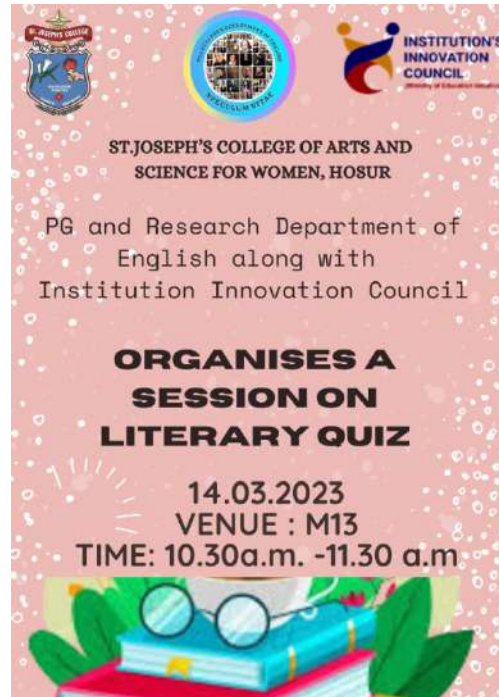

PROFILE OF THE RESOURCE PERSON:

Dr.L.Jenniffer, Assistant Professor in the Department of English and she handles the subject English Literature for Competitive Examinations.

REPORT:

The Department of English along with Institution's Innovation Cell organised Literary Quiz on 14.03.2023 for I B.A English in M-13 from 10.30 a.m. to 11.30 a.m. The total beneficiaries were 32 students. The focus of this session was to explore and promote the interest and knowledge of literature students.

During the session, the students had an exposition of literary topics and the quiz was answered. It was followed by a discussion of their doubts. The authors in quiz were further analysed and the students were benefitted.

Institution Innovation Council

OBJECTIVE:

To enlighten the students about innovative critical thinking and design thinking, inspiring students to be inculcate in them the ability to think out of the box to produce various innovative useful things.

RESOURCE PERSON:

The resource person for the webinar was Dr. K. Anbarasi, Innovation Ambassador - IIC & Associate Professor, Department of Chemistry, Nirmala College for Women, Coimbatore. She has a versatile experience of over 14 years in teaching field. she has worked as a professor in CBM College, Coimbatore from 2008-2012. At present she is working as professor at Nirmala College for Women. She has a wide range of experience over 10 years in her research field.

REPORT:

The Institution's Innovation council of St. Joseph's college of Arts and Science for women, Hosur in association with the Department of Computer Science organized the webinar on "Design Thinking as a strategy for Innovation", on 24th February 2023. The webinar was hosted in the google meet platform.

The webinar started with the bible reading by Shalini of II B.Sc [CS], followed by the welcome address by Navya sri of II B.C.A. J. Elakiya of II B.Sc.[CS] gave a brief introduction about the resource person, and then the session was handed over to the resource person.

The main aim of this webinar was to emphasize the importance of Design thinking and innovations. The resource person gave a clear explanation about the IIC and its role. She then explained about the design thinking process in detail. She also explained the benefits of design thinking.

The resource person gave a brief note on different innovative design thinking projects which are available already. She encouraged the students to think and create innovative projects. She motivated the students to think effectively.

The session was so interesting and the students understood the importance of design thinking. Princy of I B.C.A delivered the vote of thanks.

The training session concluded with the National Anthem.

Institution Innovation Council

Invitation

OBJECTIVE:

To create about awareness of Independence day to students. It's a day of patriotism and unity. It's a day to commemorate the sacrifices of our freedom fighters and remember the importance of our independence.

PROFILE OF THE RESOURCE PERSON:

Mrs. Pattu Anbukkarasan, Sub Inspector of Police, Sipcot Police Station, Sipcot- I, Hosur.

REPORT:

Independence Day commemorates a nation's freedom from colonial rule. It's a day of patriotism and unity, celebrated with flag hoisting, parades, and cultural events. This occasion reminds citizens of their shared history, sacrifices, and the ongoing commitment to upholding liberty, diversity, and progress.

August 15th, 2023 marked the celebration of the 77th Independence Day. The program's primary guest was Mrs. Pattu Anbukkarasan, a sub inspector of police. The Secretary Rev.Sr.Dona Grace Jeyaseely, the Principal Dr. J. Caroline Rose and all other dignitaries were welcomed with a band.

Freedom fighters epitomized resilience, braving oppression and risking all for their nation's liberation. Through nonviolent protests and selfless sacrifices, they shattered colonial chains, igniting the flame of independence. Their unwavering determination remains an inspiration, reminding us of the power of unity and the pursuit of freedom.

Flag hoisting symbolizes national pride and unity. It's a solemn moment when the national flag is raised, embodying the spirit of a nation. The fluttering flag evokes respect, reminding citizens of shared values and the sacrifices of those who fought for freedom.

Our chief guest raised the national flag, and all of the pupils honored it in tribute. The girls gave beautiful English, Tamil, and Tamil speech performances. The national anthem brought the day to a close, and all of the students received sweets.

Institution Innovation Council

OBJECTIVE:

The seminar aimed to shed light on the significance of patents and their role in promoting innovation and intellectual property rights.

REPORT:

The Institution's Innovation council of St. Joseph's college of Arts and Science for women, Hosur in association with the Department of Mathematics arranged an Faculty Development Program cum Seminar on "The Bright Side of Patents".

The program began with an inaugural session that featured esteemed speaker Dr. A. George Maria Selvam, Professor & Head, Department of Mathematics, Sacred Heart College of Arts and Science (Autonomous), Tirupattur inaugurated the event by emphasizing the growing importance of patents in the modern world.

This was followed by a keynote address that provided an overview of the patent system and its implications for researchers and educators.

The seminar featured specific aspects of patents and their positive impact on various fields:

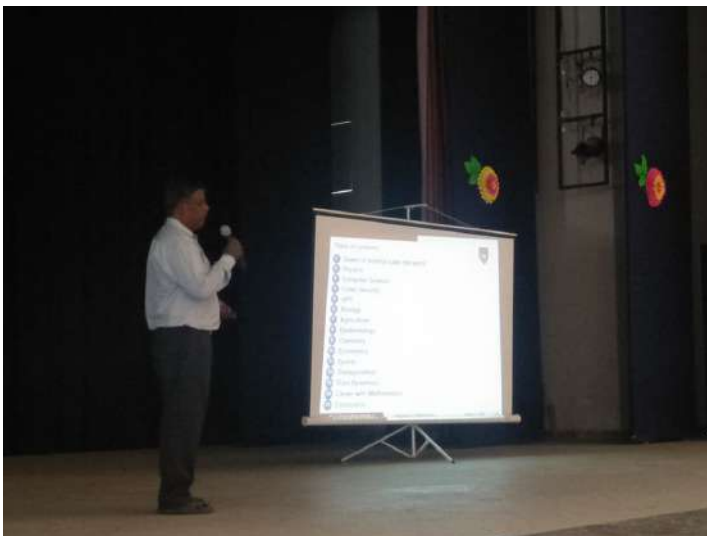

- **Understanding Patents and Innovation:** This session focused on the fundamentals of patents, their types, and the process of acquiring them. It highlighted how patents incentivize innovation and protect inventors' rights.
- **Patents in Mathematics and Allied Fields:** This explored the application of patents in mathematical research and related disciplines. Showcased real-world examples of patented mathematical algorithms and their contributions.
- **Patent Commercialization and Technology Transfer:** The importance of patent commercialization in bridging the gap between academia and industry was discussed. Shown the insights on how patents can be effectively transferred into practical applications.
- **Legal and Ethical Dimensions of Patents:** Addressing legal and ethical considerations, that provided a comprehensive overview of patent infringement, licensing, and the balance between innovation and public interest.

The Faculty Development Program cum Seminar on "The Bright Side of Patents" proved to be an insightful and engaging event. It successfully showcased the positive aspects of patents in promoting innovation, protecting intellectual property, and fostering collaboration between academia and industry. Participants left with a deeper understanding of the patent system and its relevance in the field of mathematics and related domains. The event's collaborative nature, combining academic expertise and industry insights, contributed to its overall success.

The seminar received overwhelmingly positive feedback from the participants, who appreciated the diverse range of topics covered and the practical insights shared by the speaker. Many attendees expressed their newfound understanding of patents and their potential applications in their respective fields. Several participants also highlighted the importance of organizing more such events to bridge the gap between theoretical knowledge and real-world applications.

The collaboration between the Math Metrons Association, the PG & Research Department of Mathematics, and the Innovation and Incubation Center was integral to the success of the FDP cum Seminar. In future editions, even more emphasis could be placed on facilitating networking opportunities, potentially leading to collaborative research projects or technology transfer initiatives

Institution Innovation Council

OBJECTIVE:

To spread awareness on the importance of pollution to every Individual. It involves educating people about the harmful effects of pollution and promoting sustainable practices to reduce pollution levels.

PROFILE OF THE RESOURCE PERSON:

Mrs P. Monisha, Assistant professor in Chemistry department Mrs PARIMALA, Assistant professor she has Completed Lead Auditor course on "Environment Management system, Green campus audit and Energy audit" to educational institutions and industries organized by Nature Science Foundation. They are the members of various club and committee activities.

REPORT:

The Institution's Innovation council of St. Joseph's college of Arts and Science for women, Hosur in association with the Department of Chemistry organized competition "Pollution control day on 02.12.2022

On 11th December 2022 two faculty members Mrs P. Monisha, Assistant professor in Chemistry department and Mrs LAVANYA, Assistant professor in Chemistry went to government school and they thought about the impact of pollution in the world by showing the chart and models to the government school students. Nearly 100 students were actively participated and clear their doubts.

The students acquired knowledge about reducing personal carbon footprint through ecofriendly choices and spread the word and take action to protect our planet. They also took the oath to educating others about the effects of pollution on the environment and human health.

Institution Innovation Council

OBJECTIVE:

To create motivation among the students and inculcate the new ideas and technology to use in their life.

REPORT:

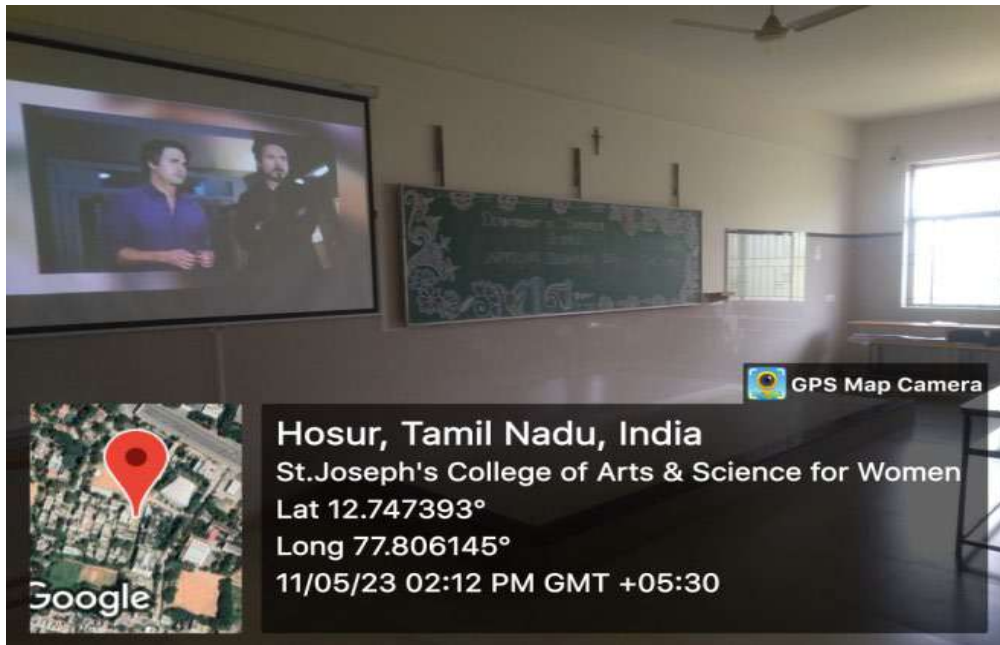

The Institution's Innovation council of St. Joseph's college of Arts and Science for women, Hosur in association with the Department of Computer Science celebrated national Technology Day on 11th Aug 2023 at Joseph's block seminar hall with 112 students and 15 faculty members celebrated the day.

The program started with a prayer song. Introduction to Technology is given to students. Technology is the application of scientific knowledge to the practical aims of human life. Technological advancement occurs when technologies or applied sciences become more precise, accurate, efficient, or more powerful or capable. Scientific and technological advancements have made many important changes throughout history, some better than others.

Two Videos such as "Top 7 Technology Trends in 2023" and "Top 12 Humanoid Robots in 2023" are played for Students. Students gathered more knowledge about current technology and trends in world. Some students presented their presentation related to Current technology trends in 2023.

Students eagerly watched to videos and PPTs and gained knowledge about technology. Students gave good feedbacks about the programme and they promised to use such technologies in their daily life.
