

## Action Taken Report (2019-2020)

Based on student feedback on the curriculum, several action plans have been devised to address their concerns effectively. A comprehensive review of course materials and structure is underway to ensure relevance and alignment with learning objectives. Additionally, faculty training programs are being organized to enhance teaching methodologies and foster student engagement. To facilitate better communication, regular feedback mechanisms such as surveys and open forums are being implemented. Moreover, efforts are being made to incorporate more interactive and practical elements into the curriculum to promote experiential learning.

### Integration of Elective Subjects

- Implemented regular reviews of elective subjects' integration with the core curriculum to ensure relevance and coherence.
- Introduced a feedback mechanism specifically focusing on elective subjects to gather insights from students and address any concerns promptly.
- Initiated faculty development programs to enhance teaching methods and ensure effective integration of elective subjects with the core curriculum.

### Curriculum Balance and Comprehensive Learning

- Conducted a thorough evaluation of the curriculum structure and content to maintain balance and enhance comprehensiveness.
- Enhanced communication channels for students to express concerns regarding curriculum balance, encouraging open dialogue and feedback.
- Introduced additional resources and support services for students who may struggle with certain aspects of the curriculum to ensure inclusivity and support.
- Organized workshops and seminars to educate students on the rationale behind curriculum design and the importance of a well-balanced learning experience.

These actions aim to create a more dynamic, student-centric learning environment that fosters academic growth and success.
