

Action Taken Report (2021-2022)

Based on the feedback received from students from the various programs, it is evident that there is a significant level of satisfaction regarding laboratory experiments and the integration of elective subjects with the core curriculum. This feedback is crucial in shaping the educational experience and ensuring continuous improvement.

Enhancing Laboratory Experiences

- **Increasing resources:** Institution plans to allocate additional resources to enhance laboratory facilities, ensuring students have access to state-of-the-art equipment and materials.
- **Training and support:** Faculty members undergo training sessions to improve their teaching methodologies, emphasizing practical applications of theoretical concepts.
- **Curriculum review:** The existing curriculum to ensure that laboratory experiments are aligned with learning objectives and provide ample opportunities for students to relate theory to practice.

Integration of Elective Subjects

- **Curriculum restructuring:** Institution explores opportunities to further integrate elective subjects with the core curriculum, creating a more cohesive learning experience for students.
- **Advisory support:** Academic advisors guide the students in selecting elective subjects that complement their interests and career goals.
- **Feedback mechanisms:** Regular feedback loops will be established to gather input from students regarding the effectiveness of integrated elective subjects, allowing for continuous improvement.

Addressing Dissatisfaction

- **Investigating reasons:** investigating the concerns raised by the 12% of students who disagreed with the integration of elective subjects and take
