

Action Taken Report (2023-2024)

Based on the feedback received from students across various programs, it is evident that there is a significant level of satisfaction regarding laboratory experiments and the integration of elective subjects with the core curriculum. This feedback is crucial in shaping the educational experience and ensuring continuous improvement. Analysis and Documentation

- Institution have thoroughly analyzed the survey responses from students across different programs regarding the satisfaction levels with the weighting assigned to theoretical and practical aspects of courses.
- Similarly, have conducted an in-depth examination of the responses pertaining to satisfaction with core courses and certificate courses offered in relation to technological advancements.

Recognition of Positive Feedback

- We acknowledge the positive feedback received from the majority of students regarding the fairness in weightage distribution between theoretical and practical aspects. This reflects a well-structured curriculum design meeting students' expectations.
- Similarly, the recognition of satisfaction towards core courses and certificate courses aligning with technological advancements is commendable, indicating that our offerings are perceived as up-to-date and relevant.

Continuous Improvement

- We are committed to continuously improving our certificate course offerings and curriculum based on student feedback.
- Going forward, we will actively seek input from students through regular surveys, focus groups, and other feedback mechanisms to ensure that their needs and
