

CERTIFICATE OF APPRECIATION 2022-2023

I am writing to express my heartfelt appreciation for the exemplary green initiatives undertaken by St. Joseph's College of Arts and Science for Women, particularly the implementation of solar panels within your institution. As the Electricity Board (EB) Asst.Engineer, I am truly impressed by your commitment to reducing power consumption and promoting sustainability using alternative energy sources.

The decision to utilize solar panels not only demonstrates your institution's forward-thinking approach to energy conservation but also sets a commendable example for other educational institutions and organizations in our community. By harnessing solar energy and reducing dependency on conventional power sources, St. Joseph's College is contributing significantly to environmental preservation and fostering a culture of eco-consciousness among its students and staff.

Furthermore, your initiative to opt for the institutional tariff highlights your dedication to maximizing energy efficiency and minimizing costs, while simultaneously advancing green initiatives. Your proactive approach in embracing alternative energy solutions not only benefits the college but also contributes to the larger goal of creating a more sustainable and environmentally responsible society.

On behalf of the Electricity Board, I extend my sincere appreciation to St. Joseph's College of Arts and Science for Women for your unwavering commitment to green initiatives and environmental stewardship. Your efforts serve as an inspiration to us all and reinforce the importance of collective action in addressing climate change and promoting sustainable development. Thank you once again for your dedication to building a greener and more sustainable future for our community.
