5 MARK QUESTIONS

- 1. Explain the role and responsibilities of a Production Manager.
- 2. Discuss the importance and scope of Production Management.
- 3. Highlight the basic functions of Production Management and their significance.
- 4. Explain the nature of Production Management and how it contributes to business dynamics.
- 5. Evaluate the key principles introduced in the textbook "Production & Material Management" and their application in real-world scenarios.

10 MARKS QUESTIONS

- 1. Discuss the evolution of Production Management, emphasizing its changing nature and impact on modern business practices.
- 2. Analyze the role of a Production Manager in ensuring effective coordination between different departments within an organization.
- 3. Explore the importance of planning and organizing in Production Management. Provide examples to illustrate their significance.
- 4. Compare and contrast the principles of Production Management with those of other key business functions such as marketing and finance.
- 5. Conduct a comprehensive review of the textbook "Production & Material Management" by Saravanavel P. and Sumathi S., highlighting its key concepts, contributions, and relevance in the field of production and material management.

UNIT-2

MULTIPLE CHOICE QUESTIONS (MCQS):

- 1. What is the primary consideration in selecting a plant location?
 - a. Employee satisfaction
 - b. Proximity to competitors
 - c. Availability of raw materials
 - d. Marketing strategies
- 2. What are the potential problems associated with plant location decisions?
 - a. Increased efficiency
 - b. High transportation costs
 - c. Access to skilled labor
 - d. Proximity to suppliers

- 3. In the context of plant location, what is a factor that influences the decision to choose an Urban location?
 - a. Low infrastructure development
 - b. Low cost of living
 - c. Access to markets and resources
 - d. Minimal competition
- 4. What is a disadvantage of selecting a Rural location for a plant?
 - a. High transportation costs
 - b. Access to skilled labor
 - c. Proximity to suppliers
 - d. Availability of infrastructure
- 5. What are the principles that guide plant layout design?
 - a. Random arrangement
 - b. Maximum utilization of space and workflow efficiency
 - c. Lack of coordination
 - d. Minimal communication

- 6. Which type of plant layout involves grouping similar activities or machinery together?
 - a. Process layout
 - b. Product layout
 - c. Fixed layout
 - d. Hybrid layout
- 7. What is a disadvantage of a Fixed Layout in plant design?
 - a. Flexibility in product variety
 - b. Low equipment utilization
 - c. Improved communication
 - d. Reduced floor space requirements
- 8. What is a characteristic of Hybrid Layouts in plant design?
 - a. Single layout type
 - b. Combination of two or more layout types
 - c. Lack of coordination
 - d. Minimal employee satisfaction
- 9. Why is it essential to consider Pros and Cons when designing a plant layout?
 - a. To ignore potential issues
 - b. To maximize costs
 - c. To enhance communication
 - d. To make informed decisions
- 10. How does the textbook "Production & Material Management" by Saravanavel P. and Sumathi S. contribute to the understanding of plant location and layout?
 - a. By focusing solely on marketing strategies
 - b. By providing real-world examples
 - c. By avoiding discussion on factors influencing location decisions
 - d. By disregarding pros and cons in layout design

ANSWERS

1.c, 2.b, 3.c, 4.a, 5.b, 6.a, 7.b, 8.b, 9.d, 10.b

SHORT ANSWER QUESTIONS (5 MARKS EACH):

- 1. Discuss the importance of plant location decisions for a manufacturing unit.
- 2. Explain the factors that influence the choice of an Urban location for a plant.
- 3. Evaluate the advantages and disadvantages of selecting a Suburban location for a manufacturing plant.
- 4. Describe the principles that guide the design of plant layouts.
- 5. Compare and contrast the characteristics of Product Layout and Process Layout.

LONG ANSWER QUESTIONS (10 MARKS EACH)

- 1. Analyze the impact of plant location on the overall efficiency and cost-effectiveness of a manufacturing unit.
- 2. Explore the challenges and benefits of selecting a Rural location for a manufacturing plant, considering factors such as labor and infrastructure.
- 3. Discuss the key considerations in choosing between different types of plant layouts, emphasizing their impact on workflow efficiency.
- 4. Compare the advantages and disadvantages of Urban, Suburban, and Rural plant locations, taking into account various business perspectives.

UNIT-3

Multiple Choice Questions (MCQs)

- 1. What is the primary goal of Production Planning and Control?
 - a. Maximizing profits
 - b. Controlling production processes
 - c. Ignoring market demand
 - d. Reducing workforce
- 2. Why is Production Planning and Control essential in manufacturing?
 - a. To minimize employee satisfaction
 - b. To meet customer demand efficiently
 - c. To increase production costs
 - d. To avoid planning and organizing
- 3. What are the key stages in Production Planning and Control?
 - a. Planning, organizing, directing, controlling
 - b. Forecasting, scheduling, monitoring, feedback
 - c. Marketing, sales, promotions
 - d. Accounting, finance, budgeting
- 4. What is the significance of Material Requirement Planning (MRP) in production management?
 - a. Maximizing production without considering material needs
 - b. Controlling inventory and production schedules
 - c. Ignoring market demand
 - d. Reducing workforce
- 5. What is the Master Production Schedule (MPS)?
 - a. A plan for employee training
 - b. A schedule detailing the production of specific products
 - c. A financial analysis tool

- d. A marketing strategy
- 6. What is the purpose of the Bill of Material (BOM) in production processes?
 - a. To ignore material requirements
 - b. To maximize production costs
 - c. To list the components needed for a product
 - d. To minimize production efficiency
- 7. In Production Planning and Control, what is the primary objective of feedback?
 - a. To ignore market demand
 - b. To avoid employee satisfaction
 - c. To improve future planning and control
 - d. To minimize production costs
- 8. Why are the basics of the Bill of Material important in production management?
 - a. To increase production costs
 - b. To minimize production efficiency
 - c. To list the components and their quantities needed for production
 - d. To avoid market demand
- 9. What role does forecasting play in the stages of Production Planning and Control?
 - a. To maximize employee satisfaction
 - b. To meet customer demand efficiently
 - c. To minimize production efficiency
 - d. To ignore market demand
- 10. How does the textbook "Production & Material Management" by Saravanavel P. and Sumathi S. contribute to understanding Production Planning and Control concepts?
 - a. By focusing solely on marketing strategies
 - b. By providing real-world examples
 - c. By ignoring the stages of production planning
 - d. By disregarding feedback in production processes

ANSWERS

1.b, 2.b, 3.b, 4.b, 5.b, 6.c, 7.c, 8.c, 9.b, 10.b

SHORT ANSWER QUESTIONS (5 MARKS EACH)

- 1. Explain the stages involved in Production Planning and Control.
- 2. Discuss the importance and role of Material Requirement Planning (MRP) in production management.
- 3. What is the Master Production Schedule (MPS) and how does it aid in production planning?
- 4. Elaborate on the basics of the Bill of Material (BOM) and its significance in manufacturing.
- 5. How does feedback contribute to the improvement of future planning and control in production processes?

LONG ANSWER QUESTIONS (10 MARKS EACH)

- 1. Analyze the need for Production Planning and Control in the efficient operation of manufacturing units.
- 2. Explore the challenges and benefits of implementing Material Requirement Planning (MRP) in a production environment.
- 3. Discuss the role of the Master Production Schedule (MPS) in balancing production and meeting customer demand.
- 4. Evaluate the significance of the Bill of Material (BOM) in the production process, considering its impact on efficiency and costs.

UNIT-4

MULTIPLE CHOICE QUESTIONS (MCQS)

- 1. What is the primary goal of Total Productive Maintenance (TPM)?
 - a. Maximizing equipment breakdowns
 - b. Minimizing equipment downtime
 - c. Ignoring maintenance practices
 - d. Reducing workforce
- 2. In Six Sigma, what is the focus concerning defects?
 - a. Ignoring defects
 - b. Reducing defects and errors
 - c. Maximizing defects for analysis
 - d. Minimizing workforce
- 3. What is the purpose of ISO 9000 Systems in manufacturing?
 - a. Ignoring quality control
 - b. Reducing equipment efficiency
 - c. Improving product quality and processes
 - d. Minimizing workforce
- 4. What is the main principle of Lean Manufacturing?
 - a. Maximizing waste
 - b. Minimizing waste and improving efficiency
 - c. Ignoring production processes
 - d. Reducing workforce
- 5. What does World Class Manufacturing aim to achieve?
 - a. Ignoring global standards
 - b. Minimizing equipment efficiency
 - c. Achieving excellence in all aspects of manufacturing

- d. Maximizing defects for analysis
- 6. What are the types of maintenance discussed in the syllabus?
 - a. Preventive, breakdown, and routine
 - b. Marketing, sales, promotions
 - c. Accounting, finance, budgeting
 - d. Research and development
- 7. In maintenance, what is the purpose of Breakdown maintenance?
 - a. To prevent equipment failures
 - b. To schedule regular equipment checks
 - c. To fix equipment after failure
 - d. To maximize equipment efficiency
- 8. What is the objective of Preventive maintenance?
 - a. To maximize equipment breakdowns
 - b. To minimize equipment downtime
 - c. To ignore maintenance practices
 - d. To reduce workforce
- 9. What does Methods Study focus on in manufacturing?
 - a. Maximizing waste
 - b. Minimizing waste and improving efficiency
 - c. Ignoring production processes
 - d. Reducing workforce
- 10. How does the textbook "Production & Material Management" by Saravanavel P. and Sumathi S. contribute to understanding Total Productive Maintenance and Lean Manufacturing?

- a. By avoiding discussion on maintenance practices
- b. By providing real-world examples
- c. By focusing solely on World Class Manufacturing
- d. By minimizing the importance of Six Sigma

ANSWERS

1.b, 2.b, 3.c, 4.b, 5.c, 6.a, 7.c, 8.b, 9.b, 10.b

SHORT ANSWER QUESTIONS (5 MARKS EACH)

- 1. Explain the principles and objectives of Total Productive Maintenance (TPM).
- 2. Discuss the key components of Six Sigma and its relevance in manufacturing.
- 3. Evaluate the significance of ISO 9000 Systems in ensuring quality control in manufacturing.
- 4. Describe the main principles of Lean Manufacturing and its impact on efficiency.
- 5. Explain the objectives and goals of World Class Manufacturing.

LONG ANSWER QUESTIONS (10 MARKS EACH)

- 1. Analyze the impact of Total Productive Maintenance (TPM) on overall equipment efficiency and production processes.
- 2. Explore the key methodologies and tools used in Six Sigma and their applications in manufacturing.
- 3. Discuss the role of ISO 9000 Systems in improving product quality and ensuring global standards in manufacturing.
- 4. Evaluate the principles and practices of Lean Manufacturing, emphasizing its contributions to efficiency and waste reduction.
- 5. Conduct a comprehensive review of the textbook "Production & Material Management" by Saravanavel P. and Sumathi S., focusing on its coverage of Total Productive Maintenance, Six Sigma, ISO 9000 Systems, Lean Manufacturing, and World Class Manufacturing. Highlight key concepts and contributions to the field.

UNIT-5

MULTIPLE CHOICE QUESTIONS (MCQS)

- 1. What is the primary goal of Materials Management?
 - a. Maximizing inventory costs
 - b. Minimizing material efficiency
 - c. Ignoring procurement procedures
 - d. Efficiently managing materials from procurement to consumption
- 2. What are the objectives of Materials Management?
 - a. Increasing material waste
 - b. Reducing material costs
 - c. Ignoring vendor evaluations
 - d. Avoiding procurement principles
- 3. Why is Vendor Rating important in Materials Management?
 - a. To ignore supplier performance
 - b. To assess and rank supplier performance
 - c. To maximize material costs
 - d. To minimize material handling equipment
- 4. What is the significance of Material Handling in production processes?
 - a. Increasing production costs
 - b. Ignoring material movement
 - c. Improving efficiency and reducing costs
 - d. Minimizing material waste
- 5. What are the principles of purchasing discussed in the syllabus?
 - a. Maximizing procurement costs
 - b. Ignoring vendor evaluations
 - c. Selecting suppliers based on price only
 - d. Considering quality, cost, and delivery in supplier selection
- 6. What is the primary focus of Material Handling principles?

- a. Maximizing material waste
- b. Efficiently and safely moving materials
- c. Ignoring safety protocols
- d. Minimizing production efficiency
- 7. In Material Handling, what are the categories of material handling equipment?
 - a. Financial management equipment
 - b. Marketing and sales equipment
 - c. Material transportation, storage, and positioning equipment
 - d. Ignoring equipment types
- 8. How does the textbook "Production & Material Management" by Saravanavel P. and Sumathi S. contribute to understanding Materials Management?
 - a. By disregarding purchasing principles
 - b. By avoiding vendor rating and evaluation
 - c. By providing real-world examples
 - d. By minimizing the importance of material handling
- 9. What is the meaning of Materials Management in a manufacturing context?
 - a. Maximizing material inefficiency
 - b. Efficiently managing materials from procurement to consumption
 - c. gnoring procurement procedures
 - d. Minimizing material waste
- 10. What role does Vendor Evaluation play in the overall efficiency of Materials Management?
 - a. To assess employee performance
 - b. To rank suppliers based on unrelated criteria
 - c. To maximize material costs
 - d. To ensure effective supplier performance and improve decision-making

ANSWERS

1.d, 2.b, 3.b, 4.c, 5.d, 6.b, 7.c, 8.c, 9.b, 10.d

SHORT ANSWER QUESTIONS (5 MARKS EACH)

- 1. Discuss the meaning and objectives of Materials Management in the manufacturing context.
- 2. Explain the principles of purchasing and their significance in Materials Management.
- 3. Describe the steps involved in the purchase procedure in Materials Management.
- 4. Discuss the importance of Vendor Rating in Materials Management and its impact on supplier relationships.
- 5. Explain the meaning and significance of Material Handling in the production process.

LONG ANSWER QUESTIONS (10 MARKS EACH):

- 1. Analyze the importance and objectives of Materials Management in enhancing overall production efficiency.
- 2. Explore the principles of purchasing and how they contribute to effective Materials Management.
- 3. Evaluate the purchase procedure in Materials Management, emphasizing its role in procurement efficiency.
- 4. Discuss the significance of Vendor Rating and Vendor Evaluation in Materials Management, and how they contribute to effective supplier management. Conduct a comprehensive review of the textbook "Production & Material Management" by Saravanavel P. and Sumathi S., focusing on its coverage of Materials Management. Highlight key concepts and contributions to the field.
