COLLEGE PRAYER

Almighty and ever living God

You are the source of all truth and wisdom.

I worship you and adore you

For, in your love you created me,

In your wisdom, you rule

And in your providence, you protect me.

Penetrate my inmost being with your Holy light,

Enlighten me to discern the right from the wrong,

Good from evil, just from unjust.

Shower your blessings upon me that I may have

Pure thoughts, kind words and a life of love.

Give me the grace to understand what I learn,

And to live what I understand.

Help me fight against evil, injustice and disharmony

And mould me to be your instrument of joy and peace in the society.

We pray for our parents, staff, benefactors and friends.

Bless them all with good health, long life,

Joy, peace and Heaven's choicest blessings.

- Amen.

"I can do all things through Christ
who strengthens me." – Philipians 4:13

Outcome Based Education (OBE)

The college follows an Outcome Based Education framework across all UG and PG programmes to ensure that:

Each course has well-defined Course Outcomes (COs) mapped with Programme Outcomes (POs) and Programme Specific Outcomes

"The Lord is close to the brokenhearted." – Psalm 34:18

(PSOs). Teaching-learning methods focus on skills, creativity, research, and problem-solving. Assessment and evaluation measure learning achievements through assignments, projects, internships, and field work. Continuous improvement is ensured by reviewing and updating curriculum, teaching methods, and evaluation patterns.

Through OBE, students graduate with confidence, competency, and employability skills, ready to meet global challenges.

Choice-Based Credit System (CBCS)

A credit is the basic unit that measures the value of a course, generally calculated as one hour of lecture or two hours of practical work per week throughout a semester. Every student is required to earn a fixed number of credits to successfully complete the programme. The college follows the Choice-Based Credit System (CBCS) which gives students the flexibility to choose elective and skill-based courses across departments, thereby enriching learning and employability. The Choice-Based Credit System (CBCS) followed in our institution promotes academic flexibility and holistic learning.

Students can:

- Choose generic specific electives and non-major courses across disciplines.
- Opt for skill-based courses to enhance employability.
- Earn credits through extension activities, internships, projects, and community engagement.
- CBCS allows students to design their own academic pathway while ensuring exposure to diverse fields, innovation, and sustainability.

Evaluation is carried out through Continuous Internal Assessment (CIA), which includes tests, assignments, projects, presentations, and other academic activities conducted during the semester, and through

"Let your light shine before others." – Matthew 5:16

the End Semester Examination (ESE), which evaluates overall performance at the end of the semester.
