One Day National Level Webinar on "Crucial Role of HR Leaders Pre and Post Covid 2019 "

One Day Webinar contribute to building and creating a work environment that is safe for employees, and they feel motivated. To do so, HR leaders implement effective practices like employee empowerment, goal setting, communication activities, etc. that help employees in achieving better consumer analysis. With the COVID pandemic in play, almost every business or organization, no matter how big or small, has been forced to adapt to or implement strict remote working policies. In such situations, too, one aspect that stands out is the ability of the HR to function across the globe and bridge gaps to ensure the continuity of the business projected financial position of the business including the returns generated and evolve a strategy – to approach and secure the required funds, a resource person can disclose the right knowledge, expertise into the listener.

One Day National Level Webinar on "Crucial Role of HR Leaders Pre and Post Covid 2019" was organized by the Department of Commerce on 02nd June 2020. The resource person for this seminar was Israil In Arabic, General Manager HR, TCS Ltd, Chennai, Mr. Arun Kumar. P, Vice President NHRD, Coimbatore Chapter, Mr. Dinesh Kumar, Assistant Manager, Delta Electronics India, Mis. Saranac S.M, Cameron Manufacturing India Pvt Ltd Coimbatore .

Commerce Department staff members and students of St. Joseph's College of Arts and Science for Women attended the One Day Webinar. The main objective of this One Day Webinar is to enhance the knowledge of the learners.

This One Day National Level Webinar focused on leaders will need to focus their resources on very crucial areas Employee's physical health and well-being, Creating and building an environment for remote working, Employee roles, and work continuity, Urgent assistance for issues related to mental health, family support, medical aid, and other

uncertainties of pre and post COVID-19 along with a host of other questions surrounding for businesses in India.

The staff members of the Commerce Department participated in the One Day National Level Webinar with great eagerness. It was an interactive session. At the end of the session all the staff members of Commerce department were equipped with the knowledge.

Report for National Webinar on – Introduction to Virtualization & VMWare Hypervisor

This webinar is organized to A research introduction to VMWare Hyper technology.

This webinar is conducted to teach all the basics of computer programming in cloud. All the first year students of BCA, B.Sc., CS took part. In this session, they cover the basics of virtual machine monitor or VMM, is software that creates and runs virtual machines (VMs). A hypervisor allows one host computer to support multiple guest VMs by virtually sharing its resources, such as memory and processing.

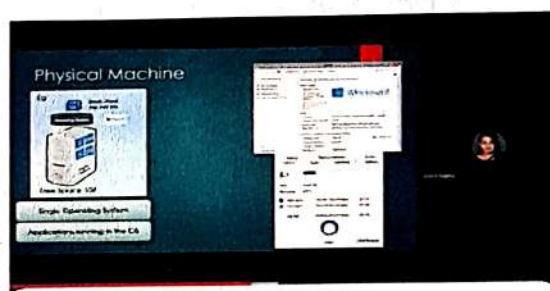

Webinar on "Introduction to Virtualization and VMWare Hypervisor", held on June 3, 20..

Hypervisor, as name suggests, is a software, hardware, or firmware that generally make virtualization possible. It simply creates virtualization layers that separates CPU/processors, RAM and all other physical resources from virtual machines

that we create. Its type includes Native hypervisor and Hosted hypervisor. It is used to allocate each VM resources such as CPU, memory, storage, and network to simply run guest OS and applications.

Webinar on "Introduction to Virtualization and VMWare Hypervisor", held on June 3, 20..

Webinar on "Introduction to Virtualization and VMWare Hypervisor", held on June 3, 20..

The resource person demonstrated each concept. She explained the stand-alone programs; cloud based programs and database concepts. At the end of the webinar, he gave the students an exercise program. The students enjoyed the session and learned a lot. Students can now apply the concepts in advanced applications.

Mrs.B.K.Jaleesha, Asst.Professor & Head, Department of Mathematics.

By 11:05 am the session was handover to Dr. Mayamma Joseph. Given the introduction and basics of the tool MAXIMA for first 15 minutes and then started the hands-on session. Covered the topics on Variables of functions, various types of Function and Simple Graphs on the types of Function.

Every 40 minutes once there was a doubt clarification session and questioning session for 10 minutes. After the hands-on session few exercise programs given for their practice.

We had 200 participants on the first day.

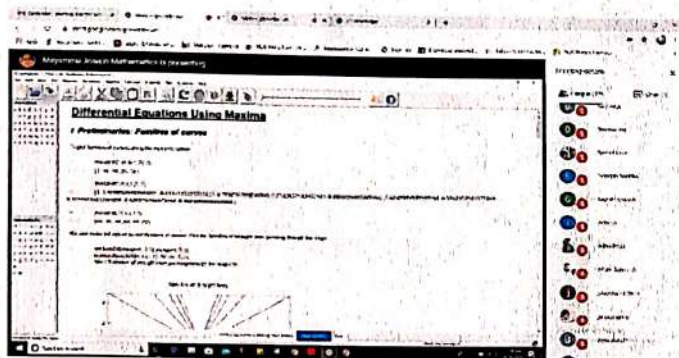

Finally the first day session ends with a thanks giving speech by Mrs.T.Mahalakshmi, Asst.Professor, Department of Mathematics.

DAY 2: Second day programme starts by 10:55 am with a small prayer by Mrs. Jebaselvi Kavitha, Asst.Professor, Department of Mathematics.

Then the Session handover to Dr.Mayamma Joseph. First 10 minutes there was an questioning and clarification of previous day exercise programs.

Started the hands-on session by few more graphs on functions. Next discussed about the new topic First Order Differential Equations and its Solution Curves.

Practice given by explaining many examples. In between there was interaction session on discussed topics with clarification. Participants interestingly followed the codes and responded by showing their wonderful and colorful outputs of curves. The second day program ends with the vote of thanks by Mrs.M. Meenakshi, Asst.Professor, Department of Mathematics. We had 200 participants on the second day.

Report for One Day Workshop on "Blockchain Technology in Medical Field"

A one day workshop is organized to explore knowledge in advancement ,security and applications for medical field.

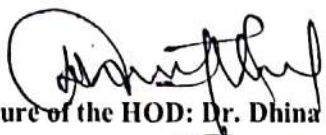

The main goal of this workshop is to present block chain applications in health care sector and their challenges. The students of II BCA has participated in this workshop. Blockchain nowadays is an emerging technology, which can be exploited in many distributed applications, especially for those which requires multi-party agreement. This technology has been designed such that any participant having computation resources can participate and contribute in the agreement process. Blockchain nowadays is an emerging technology, which can be exploited in many distributed applications, especially in medical field.

This technology has been designed such that any participant having computation resources can participate and contribute in the agreement process. However, use of these third parties can be vulnerable and hence this technology has many security and privacy issues, which needs proper attention. For example, if a malicious actor participates in the agreement process, it may be possible for it to affect the blockchain system for its malicious objective. It can also learn much sensitive information of the other actors. Therefore, the designers have to design the Blockchain system addressing all these security issues. Objective of this workshop is to discuss and disseminate the basic architecture of block chain technology, its components, working principles, implementation of block chain and then to discuss on security and privacy issues that need to be dealt in the area of "Blockchain Technology in medical field". At the end of this session the students are able to gain knowledge about how private chains and public domain can be applied in healthcare sector.

Dear Dr. **Sumanjari**

I am happy and honoured to invite you as the subject expertise for the Webinar on **"Research Methodology and Literary Review: An Overview and Guidelines"** on June 19th 2020 from 2.30 p.m to 3.30 p.m.

Platform: Google Meet

Sumanjari... 6/2/2020 ↩ !
to me, Dean, HoD ✓

Dear Mam,

I extend my gratitude for the webinar invitation. I would be glad to be the resource person and share my insights on the topic Research Methodology and Literature Review. I will send the digital signature shortly. The enclosures are duly noted.

Thank You once again.

Regards,
Dr. **Sumanjari**

LETTER OF ACKNOWLEDGEMENT AND APPRECIATION

TO
Dr. Sumanpreet,
Department of English,
Christ (Deemed to be University),
Bangalore.

We would like to express our profound sense of gratitude for conducting the ONE-DAY
ONLINE WEBINAR ON "RESEARCH METHODOLOGY AND LITERATURE REVIEW". An
insight shared with the participants were effective, and all the information that you
shared provided a new dimension to all the participants. The session conducted was
impressive and highly motivated.

We heartily thank the Resource Person, Dr. Sumanpreet from the English Department,
Christ (Deemed to be University) for delivering a remarkably motivating presentation for
the benefit of the participants.

We look forward to many endeavors in future for the benefit of the students, faculty and
academicians.

Report for One Day Workshop –Exploring on Excel

A one day workshop is organized to explore knowledge in excel advanced features.

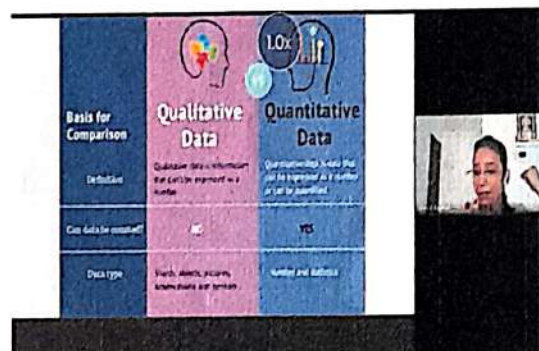

The aim of this workshop is to expose the students to tools of MS-EXCEL that are necessary for data handling. The students of III BCA has participated in this workshop.

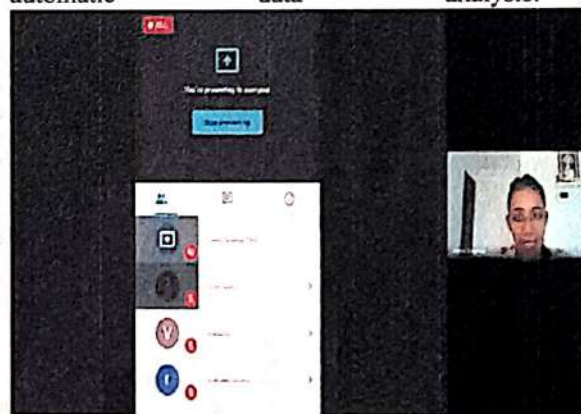

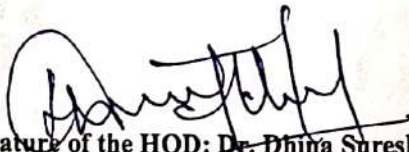

A good knowledge in excel allows a student to quickly master different statistical software packages that are now widely used in economic analyses. Excel makes it easy to monitor financial performance, such as profit or loss, calculate payments on large purchases, plan a budget, or stay organized with checklists. Students, researchers and project managers can create spreadsheets and reports, tables, diagrams, charts, and much more. This opens up more opportunities for employment and career

advancement. This webinar provides the opportunity that can benefit usage speed, as the students will learn the most advanced features for improving their efficiency and expanding capabilities in Excel.

The resource person started with an introduction to some of the uses of Microsoft Excel in our everyday life. She then explained the methods and ways of using the tools for effective analysis of data. The participants at the end of the workshop were able to learn the importance of excel in the execution of organization's various purposes and access Microsoft excel for automatic data analysis.
