Report for COMSTA Inauguration – 02.08.2021

This Webinar provides an opportunity to explore research quest to uncover – “What’s Next in various domains and Innovations”.

The Inaugural function course is organized to start the department activities and encourage the students to participate in different talents. Final years of BCA, B.Sc(CS) & M.Sc(CS) students took part in Inaugural function .

We had a Webinar on the topic “What’s Next?”. Mr.Vibin Chander Selvaraj, Professor, Rama Krishna College of arts and science, Coimbatore came as a chief guest and he gave a lecture regarding future technologies and opportunities available for students.

He particularly explained Python program and had a hands on session on Python. Python is a powerful, flexible, and easy-to-use language. In addition the community is very active there, it is used in many organizations as it supports multiple programming paradigms. Python has simpler syntax similar to the English language and also it allows developers to write programs with fewer lines of code.

The resource person demonstrated each concept. He explained the stand – alone programs. Web service programs and database concepts. At the end of the session, he gave the students an exercise program. The students enjoyed the session and learned a lot. Students can now apply the concepts in advanced applications.
